South Winnipeg, Limited.—*Directors:* F. T. Griffin (President), D. R. Finkelstein, C. Ponsonby (London, Eng.) and C. S. Tupper. *Head Office:* Union Bank Building, Winnipeg.—The company was registered February 7, 1912, under the laws of the Province of Manitoba, Canada, to acquire various properties, amounting to approximately 1,574 acres of freehold land, contiguous to the south-western limits of the city of Winnipeg, and to develop the same with a view to their re-sale. It is intended to develop 1,100 acres as an industrial section, and the remaining 474 acres as a residential section, the properties being separated by the main lines of the Grand Trunk Pacific and Canadian Northern Railways; of the lands acquired 45 acres were to be contributed towards a scheme for granting a site to the University of Manitoba, and these 45 acres have been transferred to a holding company, in which South Winnipeg, Limited, holds very nearly one-half of the share capital, and, if the scheme for the locating of the proposed site of the University should fall through, the lands held by the holding company are to be realised. The authorised capital is $2,000,000 in shares of $5, of which $1,850,035 has been subscribed and paid up. In February, 1912, there was offered for subscription through the Canadian Agency, Limited (now in liquidation), £300,000 of 5 per cent. debenture stock at the price of 90 per cent., and the whole amount was allotted. The total of this debenture stock is limited to an amount equal to the paid-up capital for the time being, has interest payable January 1 and July 1 (see below), and the stock will be repayable at par by July 1, 1924, the trust deed providing that 50 per cent. (see below) of all moneys received for land sales shall be paid into a fund and applied—firstly in paying the half-year's interest, and as to the balance in purchases at or below par, or by drawings at par, while commencing with July 1, 1917, the payments made into the fund above mentioned are to be sufficient to provide for the redemption of at least 2 per cent. of the nominal amount of the debenture stock outstanding at the commencement of such year, while the right is reserved to the company to increase the payments into the sinking fund, or to redeem on any interest date the whole or any part (if a part only, such part to be selected by drawings) on three months' notice, or to purchase the whole or any part of the stock at not exceeding par and accrued interest. The stock is secured by a floating charge on the entire undertaking, present and future.

The accounts are made up annually to December 31, and submitted in October. No sales of property have yet been made, the directors "having considered it in the best interests of the company to confine their efforts towards the improvement of the property." No dividend has yet been paid. As against the above share and debenture capital, $36,500 accrued interest on the debenture stock and $3,000 sundry creditors, the assets given in the balance sheet of December 31, 1913, were—property account, $2,680,064; sundry debtors for deferred payments in respect of land sales taken over, excluding accrued interest, &c., $48,744; a mortgage for $12,622; expenditure to date on improvements, &c., including debenture interest, less $6,923 sundry receipts, $306,036; issue and organisation expenses, $91,413; discount on debenture stock, $146,000; and cash, $64,654. Interest on the debenture stock was duly paid down to and inclusive of July 1, 1914, but default took place on January 1, 1915, and, at a meeting of debenture stockholders in May, 1915, certain alterations were agreed to in the position and rights of the debenture stockholders. As from July 1, 1914, the interest on the debenture stock is increased from 5 to 6 per cent.; a committee of debenture stockholders has been formed (consisting of A. F. P. Roger, G. D. Newton and C. B. B. Smith-Bingham), and the interest on the debenture stock as from July 1, 1914, is only to be payable as and when, and to the extent that the committee may consider that the company has money available for the purpose, but any interest not paid is to be cumulative. The shareholders undertook to surrender to the debenture stockholders' committee $1,110,000 of the share capital, of which $750,000 is to be distributed amongst the debenture stockholders at the rate of $5 per share for each £2 of debenture stock, while the remaining $360,000 of common shares surrendered is to be held by the committee in trust. Prior lien securities to an amount not exceeding £25,000 have been authorised, but are not to be created or issued without the consent of the committee. Subject to the rights of holders of any prior lien securities, the company is to pay over to the trustees for the debenture stock the whole (instead of, as stated above, one-half only) of the net proceeds of sales, less any sum allowed by the committee for taxes, or other approved expenditure to be made by the company, the sums so paid over to the trustees to be applied in paying interest on the debenture stock, and in redeeming stock by purchases or drawings. At the time of the reorganisation of the position

of the debenture stockholders there were outstanding debts for about £5,500, besides a claim for about £3,000 which was in dispute.

The books of the debenture stock are kept at the office of the Union Trust Company, Limited, 75, Lombard Street, E.C., where transfers are effected in amounts of £1 and multiples on common forms; fee, 2s. 6d. The debenture stock is quoted in the official list.

Southern Alberta Land Company, Limited.—*Directors:* W. J. Challis, W. H. Ellice and W. Walker. *Secretary:* W. J. Challis. *Office:* Bush Lane House, E.C.—The company was registered October 5, 1906, with the primary object of acquiring a tract of land containing 380,573 acres in Southern Alberta, Canada, and constructing thereon irrigation works, with a view to its re-sale at a profit; by subsequent purchases the company's holding was increased to 441,995 acres. The original purchase of 380,573 acres was taken over from the government on the basis of $3 per acre, subject to a right to deduct the cost of irrigation works to an amount not exceeding $2 per acre, conditionally upon a minimum acreage of 25 per cent. of the whole being placed under irrigation; the whole of the purchase consideration for these lands has been paid, but in respect of the additional purchases referred to, there was owing at January 1, 1914, including interest accrued, a sum of £26,431, mainly due in 1915 and 1916. The company is under agreement to sell all its land by 1931, originally 1921, but since extended. (See below for conditional extension to 1931.) Natural gas has been discovered on the property, and this is being utilised for lighting and heating purposes. In order to carry out the company's irrigation scheme 5 per cent. debenture stock was issued in 1909-11. In the early part of 1912 an accident occurred at the intake, which not only delayed the opening of the system, but necessitated various alterations and improvements in construction, and also involved the raising of further capital in the shape of 6 per cent. A debenture stock. In June, 1914, Sir William Plender, 5, London Wall Buildings, E.C., was appointed receiver. An agreement has been signed with the Canadian government, by which, conditionally upon the company endeavouring to raise a sum of $800,000, the Canadian government has agreed (a) to advance $354,684 for constructional purposes (b) to extend the time for disposal of the company's lands by 10 years, and (c) to give immediate title in respect of lands already sold; the security for the loan is to be 354,684 acres, and repayment is to be made at the rate of $1·25 per acre against title being given by the government, the whole being repayable before June 30, 1921. The receiver has been authorised to raise loans, ranking in priority to the two debenture stocks, for £242,000, but it has been decided to postpone efforts to obtain this money until the European war is finished. Interest on the two debenture stocks referred to below is in arrear. The capital issued is as under:—

£700,000 Ordinary shares of £1, fully paid, including 133,333 shares issued fully paid to the vendors, and 300,000 shares issued under option at 30s. per share to subscribers to the first issue of debenture stock, while 250,000 shares are reserved under an option given to the subscribers to the A debenture stock at 30s. per share on or before November 30, 1916. The total authorised is £1,000,000.

£690,000 Five per cent. debenture stock (limited to the amount of the paid-up capital), of which £300,000 was issued at par, in July, 1909, £100,000 in April, 1910, £50,000 in May, 1911, £50,000 in October, 1911, £50,000 in January, 1912, £60,000 in April, 1912, £40,000 in May, 1912, and £40,000 in July, 1912, with interest payable January 1 and July 1, and the principal repayable at 105 per cent. on January 1, 1934, or in whole or in part, on any interest date, on six months' notice, by drawings at 105 per cent., while the company reserves the right to purchase the whole or any part of the stock at not exceeding 105 per cent., plus accrued interest, and in the event of liquidation it is repayable at 105. A sinking fund is provided, consisting of 40 per cent. of all moneys received by the company in respect of land sold subsequent to March 14, 1913. The stock is secured by a floating charge upon the entire undertaking of the company, present and future. Interest due July 1, 1914, was not met.

£250,000 Six per cent. A debenture stock, part of £500,000 authorised, issued in April, 1913, at 95 per cent. Interest is payable May 1 and November 1, and the principal is repayable at par November 1, 1938, while the company reserves the right to redeem on any interest date the whole or any part of the stock (if in part by drawings) at par, on three months' notice, or to purchase the whole or any part at not exceeding par, plus accrued interest. Subscribers to this issue received an option certificate carrying the right to subscribe before November 30, 1916, for one share of £1, at 30s., in respect of each £1 of debenture stock allotted. For the redemption of this stock a sinking fund is to be provided into which is to be paid the proceeds arising from the exercise of the above share option, and in addition 40 per cent. of the moneys received in respect of land sales subsequent to March 14, 1913, will, after the 5 per cent. debenture stock has been paid off, operate in favour of the A debenture stock, which is secured in the same manner, but subject to, the said 5 per cent. debenture stock. Interest due November 1, 1914, was not met.

The accounts are made up annually to December 31, and usually submitted in May. The only dividend paid was 10 per cent. for 1911; in 1914 default took place in payment of debenture stock interest, and in June, 1914, a receiver was appointed. To December, 1912, 328 town lots had been sold for about $59,000, the first sale having taken place in April, 1910. In 1911 64,000 acres were sold to the Canadian Wheat Lands, Limited, for £358,400; in 1912 2,800 acres of non-irrigable land were sold at $20 per acre; no sales were effected in 1913. The first two instalments in respect of the above-mentioned 64,000 acres sold to the Canadian Wheat Lands, Limited, amounting to £256,000, which is at the rate of £4 per acre, have been paid; by the completion of a system of irrigation it is anticipated that approximately 50 per cent. of the above total of 64,000 acres will be rendered irrigable, but in the event of the percentage of irrigable land proving to be greater or less than 50 per cent., the purchase consideration is to be proportionately increased or reduced (as the case may be) at the rate of £1 12s. per acre of such excess or deficiency. An option has also been given to other parties over 25,000 acres at $40 per acre for irrigable land and at $27½ per acre for non-irrigable land. On the share capital of £400,000 of the Canadian Wheat Lands, Limited, the Southern Alberta

Company guarantees dividends of 5 per cent. per annum for the years 1913 to 1916 inclusive (the guarantee for 1913 has not been met). At April 30, 1914, the company had on hand 370,556 acres (including 56,000 acres over which the Canadian Wheat Lands has an option, and 25,000 acres over which other parties have an option); there were at the same date investments figuring for £33,130; sums owing by the Canadian Wheat Lands and other debtors, bills receivable, &c., for £135,783; and cash at bankers for £54,973, while sundry creditors, bills payable, balance of purchase money owing, and he liability to the Canadian Wheat Lands for dividend for the year 1913 debenture stock interest accrued, totalled £83,441. Reserve fund, £25,000. Estimated debit to profit and loss, £68,504. The accounts for 1914 have not yet (November, 1915) been issued.

Stock Conversion and Investment Trust, Limited.—*Directors:* N. Spens (Chairman and Managing Director), A. A. Brand, Hon. G. Peel and R. W. Shire. *Acting Secretary:* T. Calder. *Office:* 12-13, Nicholas Lane, E.C.—The company was registered February 1, 1889, "with the view of providing an organisation whereby existing stocks may be converted into more than one class of security. Apart from the conversion of railway stocks, which is the immediate object of the company, there is a wide field for profitable business in the conversion of many other first-class securities. In these operations the company's functions will generally be limited to those of a trustee." In 1893 the liability on the ordinary shares was reduced by £5 per share, and in 1897-8 by £3, while in 1908, under a scheme of reconstruction to provide for depreciation in investments in government securities, trustee stocks and railway preferred and deferred stocks, a reduction of the ordinary capital was effected, 12s. being written off each £1 of stock and 12s. off each ordinary share of £2, with £1 paid. In respect of the 12s. written off a fully-paid annuity share of the nominal amount of 1d. (for rights see below) was issued. The reserve fund, after setting aside £20,000 to meet any loss on general investments, was utilised to make up the dividend for the year 1907 on the ordinary capital to 3½ per cent., and to provide for the annuity share fund, and the balance was applied to supplement the amount provided by capital reduction towards reducing the value of the securities mentioned above. The scheme of reconstruction was duly confirmed by the court on April 16, 1908 (for particulars of a further scheme of reduction and reconstruction see below).

The authorised capital is now £857,209 1s. 2d., divided into £325,000 4½ per cent. cumulative preference stock (having also a priority as to capital), £50,000 in preference shares of £5, £100,000 in ordinary shares of £2, £279,860 in ordinary shares of £1 8s., £100,352 16s. in ordinary stock, £1,878 5s. 2d. in 450,782 annuity shares of the nominal amount of 1d., and £118 in ordinary shares of £1. All the preference and ordinary stock has been issued and is fully paid; and all the ordinary shares of £1 8s. have been subscribed, and £79,960, or 8s. per share, paid up (the balance being reserved liability, while it is provided that in the event of the company going into liquidation, any portion of the unpaid ordinary capital called up in connection with such liquidation is to rank first in any distribution of assets to the ordinary shareholders). As part of the reconstruction scheme of 1908, it was decided to transfer from the reserve fund the sum of £1,878 5s. 2d., applied in paying for 450,782 annuity shares of 1d. each, which have been issued to the holders of the reduced ordinary capital in the proportion of one annuity share for every 8s. of paid-up reduced ordinary capital. The annuity shares, as from December 31, 1907, rank for cumulative dividends of 6d. per share, immediately after the preference stock, and in the event of a winding up each annuity share shall confer the same rights as if it were a fully-paid ordinary share of 12s. The preference capital may be increased on condition that ordinary or other capital ranking behind it be created and issued to the extent of £200 of such capital for each £100 of further preference capital; in calculating this amount no deduction is to be made in respect of the ordinary capital written off in 1908. Power has been taken to borrow up to £650,000 and two-thirds of the nominal amount of the capital issued after December 31, 1907. In June, 1904, there was offered at 101 per cent. £201,500 of 4 per cent. debenture stock, of which £68,760 is outstanding; interest is payable February 28 and August 31, and the stock is redeemable, at the option of the company, on three months' notice at any time, at 5 per cent. premium.

There were also, at August 31, 1914, 4¼ per cent. terminable debentures for £15,253, and temporary loans amounting to £570,173.

The accounts are now made up annually to August 31, and submitted in December. For each of the four years to 1906 4 per cent. was paid on the ordinary capital; for 1907, 3½ (partly out of the reserve fund); for 1908 and 1909, 2½ each year; for 1910, 3; for 1911, 5; for 1912, 2; for 1913 only the preference dividend was paid; and for the eight months to August 31, 1914, the preference dividend was paid together with 4d. per share (the full rate for eight months) on the annuity shares, leaving the dividend on the latter one year in arrear. Carried forward, £9,631, including £1,436 brought down. The directors, in their report submitted in December, 1914, stated that "the existing circumstances preclude any possibility of making a reliable valuation of the investments." The preference dividend is paid January 1 and July 1, and has been paid to July, 1915. In July, 1915, another scheme for the reduction of the capital was passed by the proprietors, and now awaits the sanction of the court. Under the scheme 25 per cent. is to be written off the issued preference stock, 50 per cent. off the issued ordinary stock, and 4s. per share off each of the ordinary shares of £1 8s., on which 8s. has been paid up, while the dividend on the preference stock is to be raised from 4½ to 6 per cent., so as to give the same income to the holders as before, without further participation; when the amount at credit of the reserve fund exceeds by £81,250 or upwards the sum required in the opinion of the directors to meet any current depreciation in the investments of the company, such sum of £81,250 may, with the sanction of the company in general meeting, be capitalised by allotting and issuing preference shares of the nominal value of £81,250 credited as fully paid to the holders of preference stock, pari passu, and the same be converted into preference stock, and such preference stock or shares shall thenceforth be entitled to a cumulative preference dividend at the rate of 4½ per cent. per annum. In the event of winding up before the above-mentioned £81,250 shall have been allotted the preference stockholders are to be entitled to have the surplus assets (including its uncalled capital) applied in repaying 133⅓ per cent. of the nominal amount of the preference stock, and, in the event of a voluntary winding up, the preference stockholders are also to have distributed amongst them any surplus assets remaining for distribution after the sum of £450,782 shall have been paid or returned to the holders of the annuity shares and ordinary shares and stock, up to an amount not exceeding 13⅓ per cent. on the nominal amount of such preference stock, but in the event of a winding up after the above amount of £81,250 of preference shares shall have been issued the preference stock and shares are to have priority as regards capital, together, if the winding up shall be voluntary, with a sum equal to 10 per cent. of such amount, but without any further participation in the assets. The annuity shares are to be entitled to a cumulative dividend of 6d. per share per annum in priority to any payment on the ordinary capital, and in the event of a winding up each annuity share shall confer the same rights as if it were a fully-paid ordinary share of 6s.; while in the event of there being any arrears of dividend on the annuity shares one-half of any surplus after payment of the annuity share dividend for the year is to be applied in payment of such arrears, the other half to go as dividend to the ordinary capital.

Voting power, one vote for each 10s. of paid-up ordinary capital, or £10 of preference capital, or 40 annuity shares. After the carrying out of the reduction scheme as above, the voting rights will be one vote for every 5s. of ordinary capital paid, one vote for every 40 annuity shares, and one vote for every £7 10s. of preference stock; on any resolution for the winding up of the company otherwise than for insolvency the preference stockholders are to have one vote for each 15s. of stock. Director's qualification, £600 of ordinary stock or shares, held in own right, or the equivalent in annuity shares (40 annuity shares being regarded as equivalent to £24 of ordinary stock). Transfer form, common; fee, 2s. 6d. per deed. Ordinary and preference stocks are transferable in amounts of £1 and multiples. Telegraphic address, Intertwine, Cannon, London. Telephone number, 610 Bank. The company is quoted in the official list. Latest price of preference stock, 67¾.

In addition to the share and debenture capital, as above, the company has made the following issues of stock. The books of the issues of railway stock are kept at the National Provincial Bank of England, Limited, 15, Bishopsgate, E.C., and stock is transferable in multiples of £1. The common transfer form is used in every case, the fee being 2s. 6d. per deed. Beyond guaranteeing the due deposit of the securities in each case, and the proper application of the trust funds, the Stock Conversion Company undertakes no liability. It is provided that the trustees shall transfer the various railway stocks, in amounts of not less than £10, and multiples thereof, at the request and expense of parties who surrender to them the pro rata amount of preferred and deferred stocks issued against the original stock; but this arrangement is subject to the payment by the party so exchanging of a fee to the Stock Conversion Company of not exceeding ½ per cent. on the nominal amount of the stocks relinquished. Trustees, Executors and Securities Insurance Corporation, Limited.—*Directors:* G. A. Touche, M.P. (Chairman), Sir W. Capel Slaughter, Kt. (Deputy-Chairman), J. B. Ball, Col. H. Le Roy Lewis, C.B., D.S.O., and W. S. Poole. *Joint Secretaries:* H. R. Boyce and G. Taylor. *Office:* Winchester House, E.C.—The company was registered December 16, 1887, and undertakes the duties of trustee and executor under wills, &c., and owns the building known as Winchester House, Old Broad Street, E.C., together with safe deposits established there and at 2, Exchange Street East, Liverpool. In 1894 the board of directors was entirely reorganised, in 1898 a reconstruction of the capital took place, and in 1905 a rearrangement of the capital was effected in order to get rid of the uncalled liability on the ordinary shares. Previously to 1905 the subscribed share capital was £1,050,000 in ordinary shares of £5 5s. with £2 5s. paid up, but the scheme carried through in 1905 involved the splitting of each old share into two shares of £2 12s. 6d. each, with £1 2s. 6d. paid up, one new share being ordinary and one 4½ per cent. preference (both classes of shares have since been converted into stock). Of the liability on the ordinary shares 7s. 6d. was provided by a special payment by the company out of accumulated profits, a further appropriation of 2s. from accumulated profits being applied, with the consent of shareholders, to the expenses, &c., of the guarantee referred to below; the remaining liability on both preference and ordinary shares was also called up, but those holders who did not desire to pay the calls could retain their ordinary shares as fully paid by relinquishing at par an equal number of preference shares, the directors having arranged a guarantee for the purchase at par of all such preference shares relinquished. The old debenture stock for £400,000 carried 4 per cent. interest, and had as special security the uncalled capital of £600,000, besides the Winchester House property. The holders agreed to release this charge to permit of the capital being called under the scheme, and to increase the amount authorised of the debenture stock to a sum not exceeding one-third of the combined debenture and share capital, subject to the debenture interest being increased to 4¼ per cent. as from April 1, 1905, and the deposit with the trustees of specific securities to an amount which, with the mortgage on Winchester House, equals the sum of £400,000. The capital is now as under:—

£525,000 Ordinary stock, fully paid.

£525,000 Four-and-a-half per cent. cumulative preference stock, fully paid, with a priority also as to capital. Of the preference shares (originally of £2 12s. 6d. each), Messrs. J. Henry Schröder & Co., 145, Leadenhall Street, E.C., having contracted for 144,264 relinquished by the holders under the rearrangement of 1905, as above, offered them for sale in July, 1905, at par.

£400,000 Four-and-a-quarter (formerly 4) per cent. irredeemable first mortgage debenture stock, issued in November, 1897, through the Law Debenture Corporation, Limited, at 104 per cent., out of the proceeds of which all pre-existing debentures have been paid off. The

stock is part of an authorised issue of £525,000, and the balance of £125,000 has been issued to trustees as mentioned below. Interest is payable April 1 and October 1; the principal is irredeemable and cannot be paid off except in the event of a voluntary winding-up, and then only at the average market price of the stock for the two years preceding the repayment, but in no case at less than the issue price. The stock is secured by a specific first mortgage on the Winchester House property, and on securities deposited with the trustees for a further £140,000.

£350,000 Four-and-a-quarter per cent. consolidated debenture stock, issued in August, 1908 (at 103 per cent.), and since. The issue of this stock is limited to an amount equal to the subscribed capital for the time being, and £400,000 is reserved for exchange for the above first debenture stock; interest is payable April 1 and October 1, and the principal will be repayable at any time after 1920, at the option of the corporation, on six months' notice, at 110 per cent. and accrued interest, and will also be repayable in the event of voluntary liquidation at 105 per cent., but if after December 31, 1920, the corporation be wound up voluntarily for the purpose of amalgamation or reconstruction, the consolidated stock is to be paid off at 110 per cent. The stock is secured by a floating charge on the whole of the corporation's assets (subject to the above first debenture stock), and also on £125,000 of first debenture stock deposited with trustees, as well as on first debenture stock converted or purchased.

The accounts are now made up annually to May 31, and submitted in July, an interim dividend (in 1915 of 2 per cent. on the ordinary capital) being paid in January. For 1905-6 and 1906-7 the ordinary stock as it now stands got 5½ per cent. each year; for 1907-8, 5; for 1908-9 and 1909-10, 4½; for 1910-11 and 1911-12, 5; for 1912-13 and 1913-14, 5½; and for 1914-15, 5. Reserve fund, £185,000; carried forward, £36,941. In their report, presented to the meeting on July 14, 1915, the directors stated that "no revaluation of the investments of the corporation has been made, as the unprecedented conditions caused by the war have rendered it impossible to obtain reliable quotations for many securities." The preference dividend is paid on June 1 and December 1. Voting power, one vote for every £10 of stock, ordinary or preference. Director's qualification, £1,000 of stock of either class. Transfer form, common; fee, 2s. 6d. per deed. Ordinary and preference stocks are transferable in multiples of £1, and debenture stock in multiples of £10. Telegraphic address, Edifice, Ave, London. Telephone number, 660 London Wall. The company is quoted in the official list. Latest prices—first mortgage debenture stock, 90; preference stock, 90½; ordinary stock, 82¼.

Underground Electric Railways Company of London, Limited. — *Directors:* Rt. Hon. Lord George Hamilton (Chairman), W. M. Acworth, W. C. Burton, C. J. Cater-Scott, Lord Farrer, Col. Sir H. Jekyll, K.C.M.G., Visc. Knutsford, Sir A. H. Stanley (Managing Director), Rt. Hon. C. B. Stuart-Wortley, K.C., M.P., Jonkheer H. Teixeira de Mattos (Amsterdam), H. A. Vernet and Rt. Hon. Sir A. West, G.C.B. *Secretary:* W. E. Mandelick. *Office:* Electric Railway House, Broadway, Westminster, S.W.—The company was registered April 9, 1902, and absorbed the Metropolitan District Electric Traction Company, Limited, which was registered July 15, 1901, to carry out certain agreements with the Metropolitan District Railway Company for the electrification of that undertaking. In 1914 certain alterations were effected in the company's articles of association converting the company, at law, into what it was in fact, "namely, a share and securities holding company with wide powers, so that it may henceforward be in a position, like other holding companies, to distribute its available revenues by way of dividend, without regard to the value of its capital assets, which, from the circumstances of the case, it is very difficult to assess." The company has acquired a considerable amount of Metropolitan District Railway securities, and had agreements with the Charing Cross, Euston and Hampstead, Great Northern, Piccadilly and Brompton, and Baker Street and Waterloo Railway Companies for the construction and equipment of those undertakings ready for operation, the consideration being the remaining unissued capital, including debentures, of each. These railways have all been constructed and are now in operation, while as from July 1, 1910, the Great Northern, Piccadilly and Brompton, the Baker Street and Waterloo, and the Charing Cross, Euston and Hampstead Companies have been amalgamated under the title of the London Electric Railway Company. Early in 1912 the company offered to holders of ordinary stock of the London General Omnibus Company to purchase such stock, and now holds the entire ordinary capital of the reconstructed London General Omnibus Company. Late in 1912 the company also acquired practically the whole of the ordinary stock of the City and South London Railway Company, giving in exchange preference stock and ordinary shares held in the London Electric Railway Company; from the beginning of 1913 certain dividends have been guaranteed to those shareholders of the Central London Railway who assented to the offer made by the Underground Company; and late in 1913 the undertaking of the New Central Omnibus Company, Limited, was acquired, but this company has since been sold to the London General Omnibus Company. The company held at December 31, 1914, the following securities:—City and South London debenture stock for £412,000 and ordinary stock for £1,460,360; London Electric Railway Company 4 per cent. debenture stock for £681,427, preference stock for £650,713, and ordinary stock for £8,962,850; Metropolitan District Railway assented first preference stock for £90,000, second preference stock for £1,470,000, and ordinary stock for £1,781,500; Metropolitan Railway consolidated stock for £20,000; London and Suburban Traction fully-paid ordinary shares for £744,324, and fully-paid preference shares for £151,986; London General Omnibus (new company) ordinary shares for £1,600,480; London United Tramways fully-paid ordinary shares for £15,000; Associated Equipment Company fully-paid ordinary shares for £500,000; deferred participating income stock for £500,000; and Union Surplus Lands Company debentures for £100,000, and ordinary shares for £150,000; and Wimbledon and Sutton Railway ordinary shares for £2,420.

The company issued shares, certificates of interest in contingent profits, debentures secured on the power-house at Lots Road, Chelsea, and £7,000,000 of 5 per cent. profit-sharing secured notes, the last-mentioned having been placed in June, 1903, at 96 per cent. These profit-sharing notes were to mature on June 1, 1908, but during 1907 it became evident that the company would be unable to provide for their repayment, and arrangements were made with Messrs. Speyer Brothers to pur-

chase at their face value the coupons on the notes due December 1, 1907. In April, 1908, a scheme for dealing with the profit-sharing notes was brought forward, and was sanctioned by the court in the July following. This scheme, which was duly carried out, involved the conversion of the notes into 4½ per cent. bonds and 6 per cent. income bonds, at the rate of £40 of the former and £70 of the latter for each £100 of notes, and at the same time £1,000,000 5 per cent. prior lien bonds was created (redeemed in September, 1911, out of the proceeds of the sale of £1,285,000 London Electric Railway 4 per cent. preference stock); the reorganisation involved no change in the position of the shares, certificates for contingent profits or power-house debentures, although the last-mentioned have since been paid off by means of a fresh issue, similarly secured, but carrying a lower rate of interest, and in 1911 these substituted debentures were called for redemption as from January 15, 1912, from the proceeds of an issue of Metropolitan District and London Electric Railways Joint Power House Rent-Charge stock, received from the sale of the power-house to the two companies, a notice of which will be found elsewhere. In January, 1912, £1,088,700 of 4½ per cent. bonds was redeemed from part of the proceeds of the issue of Metropolitan District and London Electric Railways Joint Power House Rent-Charge stock, while in 1912 the company issued capital, as above, in payment for the ordinary stock of the London General Omnibus Company, Limited. The capital account is now as under, all but the last being quoted in the official list in the Commercial and Industrial section :—

The company has the option at any time to redeem all or any of the bonds by drawings at par and accrued interest on six months' notice, or by purchase in the market at or below par, while if not previously redeemed the bonds are to be repaid on January 1, 1933. The bonds are secured by the deposit under trust deed of preference and ordinary capital in the London Electric Railway Company, preference and ordinary capital in the Metropolitan District Railway Company, and preference and ordinary shares in the London United Tramways Company, to the nominal amount of £13,294,990, and the trust deed provides inter alia that, in the event of four consecutive coupons being at any time unpaid, the charge for securing the bonds shall become immediately enforceable. Payments are made in London (by the London County and Westminster Bank, Limited, Lothbury, E.C.) or in New York, Frankfort or Amsterdam at fixed rates of exchange. Early in 1910 143,550 ordinary shares were returned by the vendors of certain properties and cancelled, and early in 1911, with a view of writing down the value of certain properties and extinguishing debits to profit and loss and preliminary expenses, the capital was largely reduced, 10s. per share being written off the 661,023 fully-paid ordinary shares of £1, the unissued ordinary shares were similarly reduced, the liability on 76,877 partly-paid ordinary shares was extinguished, and the shares of lower denomination given in exchange for these partly-paid shares were subsequently converted into stock. The board has since been authorised to reconvert each or any sum of 10s. of stock into one fully-paid share of 10s. At the same time the dividend and capital rights were altered. The preference stock ranks for cumulative dividends of 5 per cent. per annum, and has also priority as to capital. There was formerly some ambiguity in regard to the relative rights of the two stocks, but these were clearly defined in a new set of articles of association adopted in 1913. There are also—4 per cent. perpetual debenture stock to the amount of £410,408, with interest payable June 1 and December 1, and repayable at par in the event of the security becoming enforceable and being enforced; and 4¼ per cent. perpetual second debenture stock for £396,399 (both debenture stocks being limited to half the subscribed capital), of which £100,000 was purchased by the Law Debenture Corporation, Limited, and issued by it to the public in August, 1907, at 97½ per cent., and the balance was issued at various prices subsequently, the interest dates being January 1 and July 1, while the principal is repayable at 105 per cent. in the event of the security becoming enforceable, and being enforced.

Capital reserve account, £42,000; carried forward, £9,174. In their report dated April, 1915, the directors stated that "in consequence of the prevailing conditions caused by the European War it is not possible at the present time to make a reliable valuation of the investments of the company." On account of 1915-16 2½ per cent. was paid on the preference and 2 per cent. on the ordinary in October. Voting power, one vote for each £10 preference or ordinary stock. Whitridge. *Secretary:* W. G. Lock. *Office:* Winchester House, E.C.—The company was registered November 15, 1889. Early in 1894, in order to provide for depreciation, £2 per share was written off the

ordinary and founders' shares; in 1905 the 200 founders' shares of £8 each, £1 paid, were acquired for £201 each, and cancelled; and in 1906 £1 per ordinary share was paid up out of the reserve fund, and £200,000 of additional preference capital was issued. The authorised capital is now £2,698,000, of which £1,498,000 is in cumulative preference stock (with a priority as to capital) and £1,200,000 in ordinary shares of £4 (formerly of £8, but subdivided in 1906). All of the ordinary capital has been issued, and £300,000, or £1 per share, paid up (to the extent of one-half out of the reserve fund); and of the preference stock £175,000 has been issued as 5½ per cent. and £200,000 as 4½ per cent., and paid up. There are borrowing powers to the extent of two-thirds of the subscribed share capital for the time being, and in February, 1890, £1,000,000 4½ per cent. irredeemable debenture stock was issued at 105 per cent., and £50,000 of this stock was sold on the market in 1913, with interest payable February 1 and August 1; this stock is the total authorised as a first charge, and is specifically secured by a mortgage of the uncalled share capital.

The accounts are made up annually to January 31, and submitted in March. For each of the seven years to 1905-6 10 per cent. was paid on the ordinary, with a bonus of 10d. per share for 1903-4, 11d. for 1904-5, and 1s. for 1905-6 (all on a subscribed capital of £1,200,000, in shares of £8, with £1 per share paid); for the six years to 1911-12, 7½; and for 1912-13, 1913-14 and 1914-15, 10. Reserve fund, £280,000; carried forward, £8,463. On account of 1915-16 5 per cent. was paid on the ordinary shares in August. The preference dividend is paid half-yearly on February 1 and August 1. In their report submitted in February, 1915, the directors stated that "a valuation based on quotations existing on January 30 last necessarily shows a depreciation, which the reserve fund is more than sufficient to cover. Such valuation, however, under the prevailing abnormal conditions can hardly be considered as affording a reliable standard of intrinsic values." Voting power, one vote for every ordinary share, or £10 of preference stock. Director's qualification, 100 ordinary shares. Transfer form, common; fee, 2s. 6d. per deed; preference and debenture stocks are transferable in multiples of £1. Telegraphic address, Cognizance, Ave, London. Telephone number, 5011 Central. United States Investment Corporation, Limited.—*Directors:* H. D. Lawrie (Chairman), E. L. I. Blyth, W. B. Dunlop and H. A. Jamieson. *Secretary:* T. M. Murray. *Office:* 9, Albyn Place, Edinburgh.—The company was registered November 5, 1890, mainly with a view of advancing money on real estate in America. The capital formerly consisted of £125,000 in ordinary shares of £5, with £1 per share paid up, £25,000 in fully-paid ordinary A shares of £1, and £100,000 in 4½ per cent. cumulative preference stock. Late in 1911, however, the capital was rearranged. The £4 unpaid on the ordinary shares was called up, and these fully-paid shares of £5 were then divided into two fully-paid preference shares of £1 (since converted into stock) and three fully-paid ordinary shares of £1; the dividend on the old preference capital was raised from 4½ to 5 per cent., the latter being also the rate on the new preference capital, and the two classes of ordinary shares were merged into one. Moreover, the borrowing powers were increased, and the holders of the existing debenture stock received a cash bonus out of the contingent or inner reserve fund at the rate of 2½ per cent. in connection with this change, and a bonus of 1s. per share was also paid out of the contingent fund to the ordinary A shareholders. The authorised capital is now £250,000—£150,000 being in 5 per cent. cumulative preference stock, having a priority as to capital and any arrears of dividend, and £100,000 in ordinary shares of £1, the preference capital being limited to 60 per cent. of the total subscribed capital for the time being, and all the preference and ordinary capital has been subscribed and paid up. The company's borrowing powers are limited to the amount of the issued capital for the time being, and in addition (for temporary purposes) the amount of the reserve funds, and these powers have been exercised to the extent of £135,886 in 4 per cent. first charge debenture stock, with interest payable May 1 and November 1, and the principal repayable at any time (now), at the company's option, at 105 per cent. Terminable debentures for £87,515 have also been issued.

On account of 1915 3 per cent. was paid in August. The preference dividend is distributed half-yearly on June 30 and December 31. Voting power, one vote for each ordinary share, or £3 of preference stock. Director's qualification, £100 in ordinary shares or preference stock. The preferred capital is limited to twice the nominal amount of the ordinary shares and stock for the time being issued, has a priority as to capital and any arrear dividends, and is entitled to a cumulative preferential dividend at the rate of 4½ per cent. per annum, the deferred stock, with the unconverted shares of the company, taking the surplus profits available for distribution. The stock is secured by a floating charge on the entire undertaking, present and future, and no mortgage or charge can be created on any part of the property ranking in priority to or pari passu with the debenture stock. The first issue of debenture stock for £300,000 was made in April, 1910, at par, to provide the company with funds to take up $1,000,000 of the bonds of the new coal fields company, referred to above, to provide additional working capital, &c., and further issues of debenture stock, amounting to £200,000, have since been made. Subscribers to the original issue of debenture stock for £300,000 were entitled to an option certificate carrying the right to subscribe before April 30, 1913, for one share of £1, at 35s. per share, in respect of every £1 of debenture stock allotted; subsequently an extension of the option to April 30, 1916, was offered at 29s. per share, on payment of 1s. per share, and holders of over 218,000 shares accepted this right of renewal.

Although under the trust deed securing the debenture stock the company is prohibited from creating any charge on any of its property ranking in priority to or pari passu with the debenture stock, loans for £80,000 have been obtained on the security of certain of the company's investments, but the trustees have "taken steps which will prevent the recurrence of any such action on the part of the company," and will adequately protect the interests of the debenture stockholders, pending a plan for financing the company now under consideration.

The accounts are made up annually to December 31, and submitted in April. For the period to June 30, 1907, a dividend of 5 per cent. (actual) was paid; for the period (eighteen months) to December 31, 1908, and the year 1909, nil; for 1910, 1911 and 1912, 5 per cent. each year (free of income tax); and for 1913, nil. At December 31, 1913, there was a sum of £132,049 owing to the company in respect of instalments on land sold and interest thereon, and at the same time there was cash on hand and on deposit and advances for £178,510; sundry debtors amounting to £1,438; and on the other side there were deposits, loans and sundry creditors for £95,098. No later report has been issued, but this notice has been officially revised. The company retains mineral rights over practically all lands sold.

In 1904 an arrangement was entered into for the transfer to this company, as from January 1, 1905, of the undertaking of the City of Buenos Ayres Tramways Company, Limited; as from July 1, 1907, that of the Buenos Ayres and Belgrano Electric Tramway Company, Limited, was acquired; as from July, 1908, that of the Buenos Ayres Electric Tramways Company (1901), Limited; while on April 1, 1909, there were transferred to this company the undertakings of the Buenos Ayres Grand National Tramways Company, Limited, the Buenos Ayres New Tramways Company, Limited, the La Capital Tramways Company, Limited, the La Capital Traction and Electric Company, Buenos Aires, Limited, and the La Capital Extensions Tramways Company, Limited, and in 1910 the undertaking of a local company formerly held on lease was acquired, the Anglo-Argentine Company now owning the greater part of the tramways operating in Buenos Ayres, consisting of 348 miles, all of which are worked by electric traction. In 1910 the company obtained from the municipality of Buenos Ayres a concession for the construction of subways with about 20 miles of single line, with a view to affording relief to the surface line traffic;

under the concession for these subways the company is to pay to the municipality a tax of 6 per cent. of the gross receipts of the subway traffic, and as regards the surface lines, which do not use the subways, existing municipal taxes are to rule, but are not to be increased and no new taxes are to be imposed by the municipality during the term of the concession which, under the 1910 concession, including all the lines recently acquired, was fixed at eighty years from the date of the contract (March 18, 1910), and then the whole of the company's lines, rolling stock and depôts are to revert to the municipality without compensation. The first portion of the subway, two miles in length, from Plaza Mayo to Plaza Once was opened in December, 1913, and the line to Caballito, a further two miles, in April-June, 1914, while the construction of the second subway line between Retiro and Plaza Constitución has been postponed under the authorization of the municipality.

In recent years considerable changes have been made in the capital account. In 1909 the then existing 6 per cent. debenture stock was converted into 4 per cent. debenture stock at the rate of £155 of the latter for every £100 of the former; the first preference shares were converted into such an amount of 4½ per cent. debenture stock as would give the same dividend as formerly; the then existing 10 per cent. cumulative second preference shares of £5 each were converted into twice the amount of new 5 per cent. cumulative first preference shares of £5, and the third preference became second preference shares, while in 1909 a large amount of 4 per cent. debenture stock was issued, mainly with a view to providing for the conversion or redemption of debenture issues of companies absorbed. In 1910, in consideration of the capital being increased, the dividends on the first and second preference shares were, as from January 1, 1911, increased to 5½ per cent. The capital is now as under :—

Interest is payable June 30 and December 31, and the stock will be redeemable by purchase at not exceeding 102 per cent. and accrued interest, or by drawings at 102, by the operation of an annual sinking fund, commencing in June, 1909, and calculated to redeem the whole issue by June 30, 1968. The stock is secured by a trust deed creating a floating charge, "with provisions precluding the company from creating any mortgage or charge in priority to, or pari passu with, the stock," on the undertaking and assets of the company, subject only to an annual payment for 80 years from January 1, 1905, to the City of Buenos Ayres Tramways Company (1904), Limited, of £71,060 (now reduced to £70,660). The authorised capital is £120,000 in shares of £1, £33,000 being 5 per cent. cumulative preference shares, ranking in regard to capital pari passu with the remaining £87,000 of ordinary shares. The subscribed capital is £32,537 in preference shares, with £29,519 10s. paid up, 8,397 shares being fully paid, and the remainder having 17s. 6d. paid, and £86,900 in fully-paid ordinary shares. The authorised issue of debenture stock is £55,000, and £45,950 has been placed; the stock is secured by a floating charge on the undertaking and assets, the company also not being at liberty to create any charge ranking in priority to, or pari passu with, the debenture stock; interest at the rate of 5 per cent. is payable April 2 and October 2, and the debenture stock is redeemable in the event of the company going into voluntary liquidation, and also at any time, at the option of the company, on six months' notice, at 105 per cent., while in any year in which the average rate of exchange at which the remittances of the company from Brazil are received in London shall have been over 1s. 6d., there is to be set aside by the company one-fourth of the profits remaining after payment of the dividend for the year, and any arrears, on the preference shares, and 5 per cent. on the ordinary shares, as a sinking fund to be applied in redeeming at 105 per cent. or purchasing debenture stock.

In July, 1914, share and debenture holders were offered the option of exchanging their holdings for shares and debentures in the Pernambuco Tramways and Power Company, Limited (a notice of which will be found elsewhere), and this offer was largely accepted. Debenture holders in the Railway Company received in exchange for their holdings 50 per cent. in debentures and 50 per cent. in ordinary shares in the Tramways Company, the latter company paying interest to August 15, 1914, as from which date the debentures of the Tramways Company bear interest; holders of fully-paid preference shares in the Railway Company received in exchange a cash payment of 5 per cent., and 50 per cent. in fully-paid ordinary shares of the Tramways Company; holders of preference shares (17s. 6d. paid) in the Railway Company received a cash payment of 5 per cent., and 50 per cent. in fully-paid ordinary shares in the Tramways Company; and holders of fully-paid ordinary shares in the Railway Company received a cash payment of 2½ per cent., and 10 per cent. in fully-paid ordinary shares of the Tramways Company. Simultaneously with this exchange the board of directors was largely altered, and is now mainly composed of gentlemen who are also on the directorate of the Pernambuco Tramways and Power Company.

The accounts are made up annually to July 31, and submitted about December. For 1903-4 the preference shares got 7 per cent. (clearing off all arrears, while the ordinary got 1¼ per cent.); for 1904-5 2½ per cent. was paid on the ordinary shares; for 1905-6, 5; for 1906-7, 1½; for 1907-8 and 1908-9 only the preference dividend was paid; for 1909-10 the ordinary shares received 1 per cent.; for 1910-11, 1½; for 1911-12, 1 (free of income tax); and for 1912-13 and 1913-14, only the preference dividend was paid. Bristol Tramways and Carriage Company, Limited.—*Directors:* Sir G. White, Bart. (Chairman), J. H. Howell, W. G. V. Smith (Managing Director), G. S. White and S. White. *Secretary:* H. F. Cooper. *Office:* Clare Street House, Bristol.—The company was registered October 1, 1887, to carry into effect the amalgamation of the Bristol Tramways Company, Limited, and the Bristol Cab Company, Limited, and now owns and operates the system of electric tramways, 31 miles in length, supplying Bristol and its immediately adjacent districts in Gloucester and Somerset. It also carries on a motor cab and general carriage business in Bristol, Avonmouth, Bath, Weston-super-Mare, Gloucester and Cheltenham, and owns and operates motor omnibus services in these towns. By the company's acts of parliament of 1898 considerable extensions of the system were authorised, and the construction and conversion of the entire system to be operated by electrical power on the overhead system were sanctioned. It was also provided that the date at which the corporation may first exercise the powers given to them by sec. 43 of the Tramways Act of 1870 to purchase as much of the undertaking as lay within the city (as it existed before the 1904 extension of the boundaries) should be on May 1, 1915. The part of the Hanham Light Railway within the city is not purchasable until thirty years from November 28, 1898, and the part outside the city, as well as other tramways within the city, not for forty-two years from 1904, and then as to both the light railway and the last-mentioned tramway on terms of paying the fair market value as a going concern. Further extensions of about 10¼ miles, of which 3 miles have been constructed, were authorised in 1904, all of which, except 1 mile, are also only purchasable by the corporation or other local authority in forty-two years and on the same terms as to fair market value as a going concern.

The authorised capital is now £1,000,000 in shares of £10, half being 4 per cent. cumulative preference shares, having also priority as to capital, and half ordinary, and the entire capital has been subscribed and paid up. The company can borrow on debenture stock up to an amount equal to the share capital for the time being paid up; and there have been issued £250,000 4 per cent., and £420,000 4½ per cent. debenture stock. These stocks are secured by specific mortgages upon freehold and leasehold properties, and the general undertaking of the company, and have interest payable on January 1 and July 1, the principal of the 4 per cent. debenture stock being repayable at any time after January 1, 1917, at 110 per cent., and that of the 4½ per cent. debenture stock may be repaid at par at any time after July 1, 1918, both being at the company's option. There are deposits to the extent of £17,405, and a bankers' loan of £62,000.

The accounts are made up annually to December 31, and submitted in February. For each of the six years to 1907 9 per cent. was paid; for 1908 and 1909, 6; for 1910, 1911 and 1912, 4; and for 1913 and 1914, 4½. Reserve fund for contingencies, £260,010. British Columbia Electric Railway Company, Limited.—*Directors:* R. M. Horne-Payne (Chairman), H. G. Brown, T. B. Brown, E. L. Evan-Thomas, E. M. Harvey, G. P. Norton and R. H. Sterling. *Secretary:* M. Urwin. *Office:* 34, Nicholas Lane, E.C.—The company was registered April 3, 1897, to take over the business and undertaking of the Consolidated Railway Company of British Columbia, which had previously absorbed the Victoria Electric Railway and Lighting Company, Limited. The lines operated are 334 miles in length; the company also supplies electric light and power for various purposes, owns a water-power plant, controls the whole of the capital of the Vancouver and Victoria Gas Companies, and owns all the shares of the Vancouver Power Company, Limited. The main belt line, 33 miles, in the city of Vancouver, and certain small extensions, can be purchased by the city authorities in 1919 at a "fair valuation," but no other portion of the railway, lighting or power undertakings is subject to purchase by local authorities. The authorised capital is now £5,000,000, embracing £1,440,000 each of preference, preferred ordinary and deferred ordinary stock, and £680,000 in shares of £1; the following issues have been made:—

£1,440,000 Perpetual preference stock, ranking first for 5 per cent. cumulative dividends, and having a priority as to capital over the preferred ordinary and deferred ordinary.

£1,440,000 Preferred ordinary stock, ranking next after the preference stock for 5 per cent. non-cumulative dividends, and for a proportion of surplus profits (see below), and having a priority as to capital over the deferred.

£1,440,000 Deferred ordinary stock, ranking after the preference and preferred ordinary for 7 per cent. non-cumulative dividends, while surplus profits are to be divided rateably between the preferred and deferred ordinary, subject to the proviso that the directors are to take 10 per cent. of the profits after payment of 5 per cent. each year on the issued capital.

£250,000 First mortgage 4½ per cent. debentures of £40 each, with interest payable April 15 and October 15, and the principal repayable (now) by annual drawings in March, at the rate of £2,400 per annum, the first ten drawings to be repaid at £42 per debenture and the remainder at par, while the principal is secured on the freehold and leasehold properties of the company. Amount outstanding, £216,400.

£220,000 Four-and-a-half per cent. Vancouver Power debentures of £100 each, of which £175,000 were issued in February, 1903, at par, through Messrs. Sperling and Co., Basildon House, Moorgate Street, E.C., and the balance of £45,000 in December, 1903, also at par; they were created for the purpose of acquiring the bulk of the share capital of the Vancouver Power Company, Limited, all of which is now held, and are secured next after the first mortgage debentures by a mortgage and floating charge on the entire undertaking of the British Columbia Electric Railway Company, while on each debenture is endorsed, by way of mortgage and as additional security, a debenture of similar total of the Vancouver Power Company. Interest is payable by coupon January 15 and July 15, and the principal is repayable in 1953, all payments being made, either in sterling, by Messrs. Sperling and Co., or in Toronto or Vancouver; a sinking fund, which commenced in the year 1905, is being provided for the redemption of the debentures. Under an option offered in September, 1910, and January, 1911, of conversion into the following 4¼ per cent. perpetual consolidated debenture stock, and by the operation of the sinking fund, the amount of these debentures outstanding has been reduced to £101,300.

£2,788,170 Four-and-a-quarter per cent. perpetual consolidated debenture stock, of which £300,000 was issued in March, 1907, at 98 per cent., £500,000 in December, 1908, at 99 per cent., £530,000 in February, 1910, at par, £600,000 in March, 1911, also at par, and £750,000 in January, 1913, at 98 per cent., the interest dates being March 31 and September 30. The stock is a first charge on the entire undertaking, subject to the existing first mortgage and Vancouver Power debentures, and the issue is limited to the amount of the share capital for the time being issued and paid up, while no mortgage or charge shall be created ranking in priority to, or pari passu with this issue, and so long as any of the first mortgage debentures or the Vancouver Power debentures remain in issue an amount of this debenture stock exceeding by 5 per cent. the total of the first mortgage debentures and Vancouver Power debentures for the time being outstanding shall be reserved for exchange for such debentures. The amount given of £2,788,170 of 4¼ per cent. debenture stock includes stock issued in exchange for 4½ per cent. Vancouver Power debentures under an option offered to the holders in September, 1910, and January, 1911, of taking in exchange 4¼ per cent. perpetual consolidated debenture stock.

The accounts are made up annually to June 30, and submitted in December. For 1903-4, 1904-5 and 1905-6 the preferred ordinary received 5 per cent., and the deferred ordinary 6 each year; for 1906-7, 5½ and 7½ respectively were paid; and for the seven years to 1913-14, 6 and 8, with, in respect of 1913-14, the assistance of £10,000 from the reserve fund. Reserve fund, £543,000; capital amortisation fund, £27,338; renewals maintenance fund, £525,382; carried forward, £6,884. The preference dividend in respect of 1914-15 was duly paid in January and July, 1915, and an interim dividend of 2½ per cent. was paid in February, 1915, on the preferred ordinary stock, but the directors have announced that, owing to the large decrease in the earnings of the company since the beginning of 1915 (partly in consequence of competition from motor cars) it is not possible to make any further payment on the preferred ordinary stock in respect of 1914-15, and therefore, of course, the deferred ordinary stock will not get any payment in respect of that year. Voting power, one vote for every £1 of stock of any class, but the preference stock only votes under special conditions. Director's qualification, stock of any class to the nominal value of £500. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in sums of £1 and multiples. Telegraphic address, Lassant, Cannon, London. Telephone number, 8562 City. The company is quoted in the official list. Latest prices —preference, 50¼; preferred ordinary, 37; deferred ordinary, 34; first mortgage debentures, 94½ per cent.; debenture stock, 60; Vancouver Power debentures, 94½.

British Electric Traction Company, Limited.—*Directors:* E. Garcke (Chairman), C. S. B. Hilton, W. L. Madgen, A. Shepherd, G. T. Symons, C. G. Tegetmeier and P. D. Tuckett. *Joint Managers:* C. H. Dade and R. J. Howley. *Acting Secretary:* T. Bower. *Office:* Electrical Federation Offices, Kingsway, W.C.—The company was registered October 26, 1896, to take over the business of the British Electric Traction (Pioneer) Company, Limited, registered November 7, 1895, and in 1903 acquired the undertaking of the Electrical Power Distribution Company, Limited. The company also owns or possesses, directly or indirectly, a controlling interest in over 40 tramway and motor omnibus undertakings.

With a view to a readjustment of the respective rights of the preference and ordinary shares, and the extinction of the arrears of dividend on the preference shares (amounting on July 31, 1911, to £266,371), a rearrangement of the capital was carried through early in 1912. Under this scheme there was issued against each then existing preference share of £10, £2 10s. of first preference stock, £5 of second preference stock, and £2 10s. of preferred ordinary stock, together with non-interest-bearing income certificates for £266,371, for the arrears of dividend on the

preference shares; and against each ordinary share of £10, £5 of preferred ordinary stock and £5 of deferred ordinary stock. The authorised capital is now £4,000,000 in stock, and £403,592 has been issued as first preference, £807,185 as second preference, £1,070,097 as preferred ordinary and £666,505 as deferred ordinary, the unissued capital of £1,052,620 being ordinary. The first preference stock ranks first for 6 per cent. cumulative dividends, the second preference next for 7 per cent. non-cumulative, and after payment of 6 per cent., also non-cumulative, on the preferred ordinary (subject to setting aside a sum equivalent to such preferred ordinary dividend for the redemption of the income certificates, to be effected by purchase in the market or by tender at below par, or by drawings at par) the deferred ordinary stock is to take the balance. The first and second preference stocks have no priority as to capital over the preferred ordinary and deferred ordinary (for particulars of the reorganisation of capital scheme decided upon in 1915, see below).

The company can borrow on debentures or debenture stock up to an amount not exceeding the amount of the subscribed capital for the time being (limited in the case of the first debenture stock to a sum equal to one-half the subscribed capital), and £1,473,653 5 per cent. perpetual debenture stock has been issued—£100,000 having been placed in July, 1898, at 116 per cent., £100,000 sold in the market in 1899 at an average price of £120 6s. 5d. per cent., £150,000 placed in February, 1900, at 120 per cent., and the remainder issued subsequently, with interest payable April 1 and October 1; the company can purchase this debenture stock in the market, and £18,178 has been so acquired, leaving the amount outstanding at £1,455,475. It is provided that in the event of the voluntary liquidation of the company the debenture stock shall be redeemable at 130 per cent. In January, 1904, an issue of £250,000 4½ per cent. second debenture stock was made at par, while the amount issued has since been increased to £528,936, secured by way of a floating charge on the whole undertaking (subject to the charge in favour of the first debenture holders), with interest payable May 1 and November 1, and redeemable at 105 per cent. at any time, at the option of the company, after December 31, 1923, on six months' notice, or at the same figure in the event of the voluntary liquidation of the company (the amount of the second debenture stock is limited to one-half of the subscribed share capital); amount outstanding, £413,192. There were also, at March 31, 1915, loans for £69,525.

The accounts are made up annually to March 31, and submitted in June. For 1903-4 and 1904-5, 6 per cent. was paid on the then ordinary capital each year; for 1905-6, 3; for 1906-7 the preference dividend only was paid; for 1907-8 and 1908-9 3 per cent. only on the preference shares each year was paid; and for 1909-10 and 1910-11, 1½ each time, leaving arrears as from September 30, 1908. These arrears were funded into income certificates under the capital reorganisation in 1912; for 1911-12 the first preference stock received its full rate of 6 per cent., but there was no distribution on the other classes; for 1912-13 the full dividend was paid on the first preference, and 3 per cent. on the 7 per cent. second preference; and for 1913-14 and 1914-15 the full rate on the first preference, and 3½ per cent. on the 7 per cent. second preference each year. Carried forward, £71,398, including £17,130 brought down. At March 31, 1915, a reserve of £482,162 was applied in reducing the book values of "investments and undertakings."

With a view mainly of providing for the depreciation in the company's investments, after allowing for the existing reserve, a reduction of the capital was decided upon in July, 1915, and the opportunity of this reduction is being taken also to rearrange the capital; the scheme now awaits the sanction of the court. Under this plan the cumulative 6 per cent. first preference, the non-cumulative 7 per cent. second preference, the preferred ordinary, and deferred ordinary stocks, together with the income certificates, are to be consolidated into two classes of capital—6 per cent. cumulative participating preference stock, with a priority as to capital, and ordinary stock, the respective amounts to be £1,000,000 and £1,998,397, of which £712,744 and £1,326,263 will be issued. After payment of the fixed 6 per cent. cumulative dividends on the new preference stock the new ordinary stock is to rank for non-cumulative dividends of 8 per cent., and thereafter the preference and ordinary stocks are to rank pari passu in the surplus profits which it may be determined to divide in any year, until a further non-cumulative dividend of 2 per cent. has been paid on the preference. The existing 6 per cent. first preference stock is to receive an equivalent amount of new 6 per cent. stock, and, as compensation for the increased amount of this security to be issued, will be given cumulative rights as well as priority in capital; the existing 7 per cent. preference stock is to be converted as to 35 per cent. into new 6 per cent. cumulative preference, and 65 per cent. into ordinary; the existing preferred ordinary stock is to receive 50 per cent. of new ordinary; the existing deferred ordinary stock is to receive 30 per cent. of new ordinary; and the existing income certificates are to receive 10 per cent. of new 6 per cent. cumulative preference and 25 per cent. of new ordinary.

Voting power, one vote for each £1 of stock of any class. (The voting rights after the reorganisation of the capital as detailed above will be one vote for each £1 of stock of either class). Director's qualification, £500 of stock of any class. Transfer form, common; fee, 2s. 6d.; the debenture stocks are transferable in multiples of £1. Telegraphic address, Tramway, Westcent, London. Telephone number, 2686 Holborn (private branch exchange). The company is quoted in the official list. Latest prices—first preference, 68; second preference, 38½; preferred ordinary, 11; deferred ordinary, 8½; 5 per cent. debenture stock, 78; 4½ per cent. second debenture stock, 63; certificates, 9.

The concession has no time limit. The authorised capital is £1,000,000, one-half being in preferred ordinary shares of £1, and one-half in ordinary shares of £1 (formerly £5, but subdivided in 1911), and £82,000 of the preferred ordinary and £239,508 of the ordinary have been issued and paid up. The preferred ordinary shares rank first for dividends of 5 per cent. per annum (cumulative after June 30, 1912), and, after paying a similar dividend (non-cumulative) on the ordinary, the preferred ordinary participate pro rata with the latter in surplus profits. The company has borrowing powers up to £1,000,000, and in August, 1905, subscriptions were invited on behalf of the contractors towards £200,000 6 per cent. first debenture stock at par, and all was allotted, £126,500 (of the £200,000) having previously been applied for, and £50,000 of stock (making up the authorised issue of £250,000) has since been placed; the debenture stock is secured by a floating charge on the undertaking, and no mortgage is to be created to rank in priority to, or pari passu with, the debenture stock, without the consent of a three-fourths majority of the debenture holders; interest on the debenture stock is payable February 1 and August 1 (see below), and the stock is redeemable at 105 per cent. at any time (now), on six months' notice, or on the company going into voluntary liquidation, the company having undertaken to pay to the trustees annually, commencing February 1, 1908, a sum of £1,000 for a sinking fund for the redemption of the debenture stock at 105 per cent., or by purchases in the market at any less price; amount of debenture stock outstanding, £242,207. An issue of £500,000 6 per cent. extension first mortgage bonds was authorised, and £326,900 has been placed, including £120,000 issued in March, 1910, at 86 per cent.; interest on the bonds is payable March 1 and September 1 (see below), and the principal is repayable from a sinking fund of ½ per cent. per annum, applicable to the purchase of bonds at not over par, commencing March 1, 1911, and, if above par by drawings, while the company retains the option of

paying off all outstanding bonds at par at any time (now), on six months' notice ; amount of extension bonds outstanding, £330,100. At June 18, 1915, there was also a loan of £48,500 secured by a deposit of 6 per cent. extension first mortgage bonds. Interest due on the extension first mortgage bonds on September 1, 1914, and since, is in arrear, as well as interest due February 1 and August 1, 1915, on the first debenture stock, and the company is in the hands of a receiver. A scheme for the reconstruction of the debenture debt and share capital of the company is under consideration.

The accounts are made up annually to December 31, and those for 1914, together with accounts to June 18, 1915, on which date a receiver was appointed, were submitted in November, 1915. In 1911-12 then existing preferred shares were converted into ordinary, and the capital is now as under :—

$25,000,000 Ordinary shares of $500, fully-paid (being the total authorised), including $10,000,000 issued in 1911-12 in conversion of then existing preferred shares.

£650,000 Five per cent. first mortgage debenture stock, part of £1,000,000 authorised, of which £300,000, purchased by the Anglo-American Debenture Corporation, Limited, on behalf of itself and others, was resold in July, 1905, by public issue at par ; in October, 1908, a further £200,000 of similar stock was purchased by the same corporation and sold in the same way at 96 per cent. ; and in 1910 a further £150,000 was bought by them and sold at various prices. No part of the additional £350,000 can be issued until the trustees are satisfied as to the application of the proceeds of the amounts previously issued, and that the net earnings are at least three times the amount of interest on the stock issued, and also twice the interest on the stock issued, plus the proposed further issue of stock. The trust deed for the consolidated mortgage debentures, mentioned below, contains further stipulations in regard to the issue of additional first mortgage debenture stock. The stock is secured by a first mortgage on the company's undertaking, has interest payable March 1 and September 1, at the offices of the Anglo-American Debenture Corporation, Limited, 20, Birchin Lane, free of Argentine government taxes, and is to be redeemed by a cumulative sinking fund of 1 per cent. per annum, to be applied in purchasing stock at or under 105 per cent., or by drawings at that price, and any stock not so redeemed is to be repaid March 1, 1955, at 105 per cent., with the option to the company to redeem the whole or any part of the stock at any time (now), at a like figure. In the event of the liquidation of the company, or of the security becoming enforceable, the stock is also to be repaid at 105 per cent.; amount outstanding, £598,417.

£400,000 Five per cent. extension mortgage debentures of £20, £100 and £500 each, of which £350,000 was issued in March, 1910, at 90 per cent. The bonds form part of a total authorised of £1,000,000, but under the trust deed of the under-mentioned consolidated mortgage debentures no further extension mortgage debentures can be placed. The debentures are to bearer, have coupons payable June 1 and December 1, in London (by Messrs. Glyn, Mills, Currie and Co.), Brussels or Buenos Ayres, free of Argentine government taxes, and the principal is repayable from a cumulative sinking fund of 1 per cent. per annum, commencing December 1, 1911, and applicable to purchase at or under 105 per cent. or to drawings at that price, any debentures not previously redeemed to be paid off at 105 per cent. on June 1, 1955. Further, the company reserves the right, on three months' notice, to redeem the whole, or any part of the debentures, at any time (now), at 105 per cent., which will also be the rate of redemption in the event of the liquidation of the company or the security becoming enforceable. The trust deed also provides that no further first mortgage debenture stock over the £650,000 already outstanding may be issued unless the profits of the company for the year ending June 30 immediately preceding such issue shall have been at least double the amount necessary to pay the interest for one year on the first mortgage debenture stock and on the extension mortgage debentures issued and not replaced by consolidated debentures and the consolidated debentures for the time being outstanding and on the further first mortgage debenture stock proposed to be issued ; and the trust deed also provides that no further extension mortgage debentures may be created beyond the £400,000 already issued. The change of power has been completed. The authorised capital was originally £80,000 in shares of £1, half in 6 per cent. cumulative preference shares, without priority as to capital, and half ordinary, all of which had been subscribed and paid up, but in June, 1915, the preference shareholders were given the opportunity of converting their holdings, in whole or in part, into ordinary shares, the arrears of dividend, amounting at June 30, 1915, to 39 per cent., being then cancelled, while at the same time 20,000 additional shares were created, to be issued as the directors may determine, but not to rank over the preference shares then in issue. There is also 4½ per cent. first mortgage debenture stock for £40,000 (part of £50,000 authorised), secured by a floating charge on the whole of the undertaking, with interest payable April 1 and October 1, while the stock is redeemable at 105 per cent. in the event of the voluntary liquidation of the company, or at the option of the company at any time (now) on six months' notice.

Concessions have been granted to the company by the authorities in Cawnpore, securing the sole and exclusive right to construct and work by electricity tramways for the city and suburbs of Cawnpore; the concessions for the tramways, &c., are for a period of 42 years from August, 1904, after which period they will become subject to the provisions of compulsory sale contained in the Indian Tramway Act, 1886, and the Indian Electricity Act, 1903. A new franchise ordinance passed both houses of the city council in July, 1914, and provides for the merger of the allied railways, including the Metropolitan Street Railway Company, the Kansas City Elevated Railway Company, and the Kansas City and Westport Belt Railway Company. The new company, the Kansas City Railways Company, was incorporated July 5, 1914, with a capital of $100,000 (which is to be increased later), but the courts refused to sanction the plan of reorganisation put forward; "the court has submitted a plan of reorganisation and it is expected it will be accepted November 7, 1915." Metropolitan Electric Tramways, Limited.—*Directors:* E. Garcke (Chairman), Sir E. Spencer (Deputy-Chairman), J. Devonshire (Managing Director), W. L. Madgen and C. G. Tegetmeier. *Secretary:* A. L. Barber. *Office:* Electric Railway House, Broadway, Westminster, S.W.— The company was registered November 21, 1894, as the Metropolitan Tramways and Omnibus Company, Limited, and the name was changed as above in January, 1902. The County Councils of Middlesex and Hertford have agreed to lease to the company a system of light railways which extend into the following districts, viz.: Wembley, Willesden, Edgware, Hendon, Finchley, Barnet, Wood Green, Southgate, Enfield, Tottenham, Edmonton and Cheshunt. In the case of the Middlesex light railways, the leases expire in 1930, and in the case of the Hertfordshire light railways, are for 42 years from the date of confirmation of the Light Railways Orders (obtained in 1904 and 1906). The cost of constructing the lines and widening the roads is borne by the County Councils. At the expiration of the leases, the buildings, electrical equipment, and rolling stock, &c., provided by the company under the agreements for lease, will be purchased by the County Councils as part of a going concern. The Middlesex agreement provides that after an allowance to the County Council and the company of interest upon their respective capital expenditures, the net profits from the working are to be divided—45 per cent. to the Council, and 55 per cent. to the company. In the case of the Hertford lines in Barnet and Cheshunt, the agreement provides for the payment by the

company to the County Council of a fixed rent of 5 per cent. per annum upon the Council's capital expenditure on the light railways. The tramways of the company in Middlesex are purchasable by the Local Authorities under section 43 of the Tramways Act, 1870, as follows :—Tottenham, Edmonton and Wood Green in 1930. The tramways in London are purchasable in 1930. A short section of line, partly in London and partly in Middlesex, running from Finsbury Park to Manor House, has been recently purchased by the London County Council, but by arrangement with the County Council this line is worked jointly by the company and the County Council. The first section of the County of Middlesex light railways, namely, a connecting line between the company's tramways in Tottenham and Wood Green, was opened in August, 1904. Other sections of these light railways have been subsequently opened, making, with 12½ miles of tramways, approximately 56¾ miles in operation. The purchase price for the tramways which were taken over from the North Metropolitan Company was £210,000, satisfied by the assumption, both as to principal and interest, of the then existing £150,000 3½ per cent. debentures of that company, while the balance has been paid in cash (the company's liability in respect of these £150,000 of debentures has been fully discharged as follows :—£76,200 by the issue of a like amount of debenture stock of the company, £22,100 by purchases for cash, and £51,700 by the deposit of that sum with the North Metropolitan Tramways Company). In August, 1906, the company purchased the undertaking of the Harrow Road and Paddington Tramways Company (since wound up, the bulk of the shares of which was held by the Metropolitan Electric Company); the reconstruction of the Harrow Road Tramway was completed in 1906. The portion of this tramway in the London area, 1½ miles in length, was in 1909 purchased by the London County Council on the terms of section 43 of the Tramways Act, 1870, and was extended by the company as far as the Edgware Road. The extension has been purchased by the London County Council, and is worked by the company, the Council, however, reserving the right of joint user. After payment of the various prior charges, including interest on the company's capital expenditure, the profits from all the tramways, and from the Hertfordshire light railways are pooled with the Middlesex County Council. The company owns the issued ordinary share capital of the North Metropolitan Electric Power Supply Company (£400,000—£350,020 paid), from whom the current for working the tramways and light railways is purchased; this company commenced to supply electric power for lighting purposes in 1904. Late in 1912, 15s. per deferred share of £1 was written off as unrepresented by assets, and the deferred shares were then converted into ordinary, ranking equally for dividend with the pre-existing ordinary as from January 1, 1913. In November, 1912, holders of Metropolitan Electric Tramways shares were offered exchange into London and Suburban Traction Company's securities, and in this manner the London and Suburban Traction Company has become possessed of £456,587 of the preference, and £463,656 of the ordinary capital of the Metropolitan Electric Company. The authorised capital is now £1,078,504 in shares of £1, £500,000 being preference and £578,504 ordinary, and there is power to borrow debenture stock up to an amount equal to three-fourths of the paid-up capital. The issues are as under :—

The stock is secured by a specific charge on the tramways, light railway leases, and part of the shares in the North Metropolitan Electric Power Supply Company, and by a floating security on all other assets of the company. Interest is payable January 1 and July 1, and the stock is redeemable at 105 per cent., at the option of the company, at any time after December 31, 1930, on six months' notice, or on the voluntary liquidation of the company, while a cumulative sinking fund commenced in 1908, of 1 per cent. per annum, with power to apply same in the purchase of stock on the market; amount outstanding, £543,474.

The interest dates for the debenture stock are April 1 and October 1, and the principal is repayable, at the option of the company, at 105 per cent., on six months' notice, at any time prior to December 31, 1930, or on the voluntary liquidation of the company for the purpose of amalgamation or reconstruction, and at any time after December 31, 1930, at par. Moreover, the company has agreed to provide in the month of April in 1912, and in each succeeding year, a sum equal to 1 per cent. of the stock outstanding and redeemed, to be applied in purchasing stock in the market, while, so far as it is not employed in this manner, it is, with the approval of the trustees, to be invested. The stock is secured by a floating charge on the entire assets of the company, subject to the 4½ per cent. debenture stock. The proceeds of this issue were applied in the extinction of loans, providing rolling stock, &c. ; amount outstanding, £287,030.

The accounts are made up annually to December 31, and submitted in March or April. The preference dividend was guaranteed by the British Electric Traction Company, Limited, for three years from January 1, 1902, and in respect of 1903 and 1904 the net profits were sufficient to cover debenture interest and the preference dividend, and to repay sums advanced by the British Electric Traction Company, Limited, in respect of the period to December, 1902, while for 1905 the ordinary shares received 3 per cent. ; for 1906, 4 ; for 1907 and 1908, 4½ each time ; for 1909, 5 ; for 1910, 5½ ; for 1911, 6 ; for 1912, 5½ ; for 1913, 3 ; and for 1914, 2. St. Louis, Springfield and Peoria Railroad Company.—The company was organised on December 1, 1909, under the laws of the state of Illinois, U.S., to acquire and consolidate various inter-urban properties, operating electric tramways in the state of Illinois between the cities of Venice, situated on the east bank of the Mississippi River, opposite St. Louis, and Springfield, the capital of the state of Illinois. On April 15, 1912, the charter of the company was amended, giving authority to acquire and operate a railroad from Springfield to Peoria, Illinois, with a branch line connecting Bloomington, Illinois. The company now owns a line of railroad from Venice to Peoria, Illinois, with a branch line connecting Bloomington, and cars are operated through to the business section of St. Louis and across the Mississippi River via the bridge owned by the St. Louis Electric Bridge Company, which is a controlled company of the Illinois Traction Company. The authorised share capital is $8,800,000 in shares of $100, $2,800,000 being in preferred shares, and $6,000,000 in common shares, and $2,572,000 of the preferred and all the common have been issued and paid up. In July, 1912, the London Joint Stock Bank, Limited, 5, Princes Street, E.C., was authorised, by the owners of the bonds, to receive applications at 98½ per cent. for $880,000 first and refunding mortgage 5 per cent. gold bonds, guaranteed unconditionally as to principal and interest by the Illinois Traction Company. The total authorised issue is $15,000,000, of which in all $4,653,000 has been issued, $715,000 is reserved for issue against prior lien bonds, secured on a part of the property, $145,000 is reserved for underlying bonds, and $9,487,000 is reserved for various purposes, under restrictions. Except as regards $500,000, which are issuable at any time for 80 per cent. of the cash cost of additions and permanent improvements, the remaining $9,487,000 of first refunding and mortgage bonds can be issued only when for the preceding twelve months the gross earnings have equalled five times, and the net earnings one-and-three-quarter times, the interest charges on all bonds outstanding and then proposed to be issued. The bonds have interest payable January 1 and July 1, free of United States taxes, and mature December 1, 1939, but are redeemable, at the company's option, at 105 per cent. on any interest date; they are in denominations of $1,000 each, are secured by a first mortgage upon all the company's property, subject only to $715,000 of prior lien bonds, and payments are made in New York or Chicago, but in regard to the $880,000 offered for sale here payments may be received at the head office of the London Joint Stock Bank, Limited, as above, at the fixed exchange of $1,000 equalling £205 9s. 7d. The bonds are to bearer, but may be registered as to principal only. There are also general mortgage bonds, ranking after the first and refunding mortgage bonds, for $4,157,000. For the twelve months to December 31, 1914, net earnings were $43,699 short of all fixed charges, and this deficit was provided by the Illinois Traction Company. First and refunding mortgage bonds for $880,000 are quoted in the official list; latest price, 88¼.

The Illinois Traction Company was organised in 1904, and controls about thirty other companies, including the above-mentioned. It has issued $12,251,100 of common shares and $7,135,500 of 6 per cent. preferred shares, both classes of $100 each. The first dividend on the common shares was ¾ per cent. in May, 1913, and similar payments were made in February, May, August and November, to August, 1915. For 1914, after meeting the preferred dividend, and paying 3 per cent. on the common shares, there was a surplus of $81,548.

St. Paul City Railway.—This company forms part of the system of the Twin City Rapid Transit Company. "Cable consolidated mortgage" 5 per cent. gold bonds of $1,000 each for $3,708,000 are known here. Interest is payable January 15 and July 15, and the principal falls due January 15, 1937, all payments being made in New York. The total of the bonds is limited to $5,500,000, which includes provision for redeeming $680,000 prior bonds. Of the "cable consolidated mortgage" bonds $1,138,000 is guaranteed as to principal and interest by endorsement of the Twin City Rapid Transit Company.

No dividend has yet been paid on either class of share capital; in respect of 1914-15, after meeting interest charges (on the debentures to September 30, 1914), &c., there was a loss of £5,713, thus increasing a debit

balance of £1,018 brought down to £6,731. Voting power, one vote for every share of either class. Director's qualification, 200 shares of either class. Transfer form, common; fee, 2s. 6d. Telegraphic address, Luimetram, Cannon, London. Telephone number, 2939 City.

Sunderland District Electric Tramways, Limited. — *Directors:* H. R. Hogg (Chairman), A. Counter, C. Eves, Hon. R. Parker and R. Tayler. *Secretary:* H. J. Almond. *Office:* Balfour House, Finsbury Pavement, E.C.—The company was registered November 5, 1903, to acquire, construct, and work certain tramways of an authorised length of 19¼ miles (since reduced to 16 miles, all of which is in operation). The local authorities have by the Tramways Act, 1870, certain powers of purchase, not, however, arising until the expiration of 42 years from the date of the company's order. Late in 1912 a scheme for the reorganisation of the debenture debt was carried through, under which the old prior lien bonds were paid off and new ones created; the first mortgage debentures were exchanged as to 25 per cent. into first income bonds, with arrear interest (two-and-a-half years to June 30, 1912) provided in like security, the balance of 75 per cent. remaining with the same security as before; and second charge certificates, with arrear interest (also two-and-a-half years to June 30, 1912), were exchanged for 50 per cent. each of first and second income bonds. The reorganisation of the debenture capital in 1912 was partly to provide funds for the modernising of the rolling stock, the relaying of a portion of the track, and for the general purposes of the company. In March, 1914, a reduction of the capital took place, 10s. being written off each issued preference share, and 19s. off each issued ordinary share, all arrears of dividend on the preference shares being cancelled, while these preference shares now rank for 12 per cent. non-cumulative dividends, instead of 6 per cent. cumulative as formerly. The authorised capital is now £151,012, £4,505 being in 12 per cent. non-cumulative preference shares of £1, £47,747 10s. in 12 per cent. non-cumulative preference shares of 10s. (both classes of preference shares ranking equally as regards capital), £95,010 in ordinary shares of £1, and £3,749 10s. in ordinary shares of 1s., and the following issues have been made:—

£47,747 10s. Twelve per cent. non-cumulative preference shares of 10s., fully paid.
£3,749 Ordinary shares of 1s., fully paid.
£20,000 Five-and-a-half per cent. prior lien bonds of £50 and £100 each, issued under the scheme of 1912, the total authorised being £30,000. Interest is payable January 1 and July 1, and the principal is repayable at 102 per cent. on June 30, 1973, while

beginning with the year ended June 30, 1913, a sum of £500 per annum is to be set aside out of profits, after paying prior lien and debenture interest, and this is to accumulate in the hands of trustees until it is sufficient to redeem the prior lien bonds at par, when it is to be applied either to purchases or drawings, and when the redemption of the prior lien bonds has been effected this sinking fund, with any balance over from the repayment of the prior lien bonds, is to operate in favour of the first mortgage debentures.

£120,000 Five per cent. first mortgage debentures of £75 each, with interest payable January 1 and July 1. These debentures will have the benefit of the prior lien bond sinking fund, when those bonds have been paid off (see notice of the prior lien bonds). The amount originally issued of these debentures was £160,000, but under the scheme of 1912 £40,000 of the total issue was exchanged for first income bonds.

£70,074 Five per cent. non-cumulative first income bonds of various amounts each, part of £72,000 authorised, issued under the scheme of 1912 in part redemption of first mortgage debentures and second charge certificates, and arrear interest thereon. Interest is payable out of profits available after payment of prior lien and debenture interest, and setting aside £500 per annum as a sinking fund for the prior lien bonds, and the principal is repayable at any time, on six months' notice.

£11,241 Five per cent. cumulative second income bonds of various amounts each, part of £12,000 authorised, issued under the scheme of 1912 in part redemption of second charge certificates, and arrear interest thereon. Interest is payable annually as from July 1, 1912, and the principal is repayable, at any time, on six months' notice.

The accounts are made up annually to October 31, and submitted in February. There has so far been no dividend on either class of shares, and debenture interest was in arrear, but all such arrears were provided for in the reorganisation scheme of 1912. Interest on the prior lien bonds and the first mortgage debentures is being met, and in respect of 1913-14 2½ per cent. was paid on the first income bonds, but no distribution has yet been made on the second income bonds. For the year ended October 31, 1911, the amount of earnings available for interest charges was £9,019; for 1911-12, £8,532; for 1912-13, £11,270; and for 1913-14, £10,278. In respect of 1913-14, after meeting interest on the prior lien bonds and the first mortgage debentures, and paying 2½ per cent. on the first income bonds, a balance of £644 was carried forward. Clements. *Office:* Electrical Federation Offices, Kingsway, W.C.—In April, 1881, the capital, which was previously all of one description, was divided into Tramways capital and Improvements capital, and for dividend each class ranked on its own undertaking only. As from July 1, 1899, the company has leased for 999 years the properties of the Mumbles Railway and Pier Company and the Swansea and Mumbles Railways, Limited, and as from June 30, 1900, the tramways (5½ miles) have been worked by electric traction. In 1911 a fresh agreement was entered into with the corporation under which it cannot now purchase any portion of the line owned by the company until December 31, 1942, and then under section 43 of the Tramways Act, 1870, the company on its part agreeing that the corporation shall have the right to purchase the whole of the lines on the above date without any obligation to grant a lease thereof to the company. The company has also leased seven miles of tramways and light railways from the corporation, which lease is only to be determined in the event of the corporation purchasing the lines owned by the company. This agreement has been confirmed in the Swansea Corporation Act, 1912. The issues in respect of the Tramways undertaking are—£130,000 fully-paid ordinary shares of £10, £9,840 in fully-paid 6 per cent. non-cumulative preference shares of £10, and £40,160 in fully-paid 5 per cent. non-cumulative preference shares of £10 (the preference shares, however, having no priority as to capital), while there are also—4½ per cent. mortgage debentures for £26,250, with interest payable January 1 and July 1, and the principal repayable at par June 30, 1922; and £8,000 owing to the British Electric Traction Company, Limited. The Improvements undertaking shares have as yet received no dividend or any return of capital, and may be regarded as having ceased to exist, there being no assets to represent the capital. Voting power, one vote for each ordinary share up to 10, one vote for every 5 shares beyond up to 100, and one vote for every additional 10 beyond the first 100. "The period of the concession is thirty years. If the system is not bought by the government at the end of thirty years, the concession is extended for another ten years, making forty years in all. From the tenth year of the concession onward, the government has the option of buying the system at a premium ranging from 10 per cent. to 2 per cent. ; at the end of the thirty years there is to be no premium on the purchase price, and at the end of the forty-year period the purchase price is determined by the amount required to complete the replacement of the capital on the basis of a forty-year sinking fund, i.e. the company not having had time to extinguish by sinking fund the additional capital expended during the successive years of the concession, the government will make up the difference at the end of the forty-year period. . . . The term of the life of the company is fixed by the articles at sixty years, except in the case of previous liquidation or of extension for any purpose." The Turkish government is to receive a royalty of 15 per cent. of the gross telephone revenue.

The authorised capital is £450,000 (£T495,000) in shares of £5 (£T5·50), of which £250,000 has been subscribed and paid up. months' notice at 102 per cent., any partial redemption to be by drawings, while the company reserves the right to redeem the bonds by means of purchase in the market.

The accounts are made up annually to December 31, and usually submitted in May. Three large exchanges at Stamboul, Pera and Kadikeuy were opened in February, 1914. Owing to the war interest due on the obligations on July 1, 1914, and since has not been paid. Interest at the rate of 5 per cent. per annum on the paid up share capital was to be paid during construction (paid to December, 1913). It has not been possible to prepare any accounts for the year 1914, but this notice has been officially revised. Shares numbered 1 to 50,000 are quoted in the official list.

In July, 1913, the company entered into an agreement with His Majesty's Postmaster-General for the construction of long distance wireless stations, which will be required within the next few years for the imperial wireless scheme. The stations will be operated by the company for account of the government for the first six months, and thereafter by the government. Under the terms of this agreement the company is to receive payment of approximately £60,000 for each station, exclusive of site, foundations for machinery and buildings, and the buildings themselves, and a percentage of the gross receipts of all the stations so erected for the term of the agreement, which is 28 years from the date of the opening of the service of the first three stations, while the government has power to terminate the agreement at the expiration of eighteen years, but in that event would cease to have the right to use any of the company's patented processes or machinery. At December 31, 1914, the par value of shares and debentures of the associated companies was £2,469,858, which were taken in the balance sheet at £1,360,125.

In connection with the acquisition of the majority of the shares of the Compagnie Universelle de Télégraphie et Téléphonie sans fil of France, which company owns the world-wide rights (other than those of Germany) of Professor Goldschmidt's inventions, 500,000 new ordinary shares were created in October, 1913, and the authorised capital is now £1,500,000 in shares of £1, £250,000 being in preference and £1,250,000 in ordinary, and all the preference and £1,222,688 of the ordinary have been subscribed and called up, including 250,000 ordinary shares issued in October, 1913, at £2 5s. per share premium. The preference shares have a priority as to capital, rank first for cumulative dividends of 7 per cent., and participate pari passu with the ordinary in surplus divisible profits after the latter have received non-cumulative dividends of 10 per cent.

The accounts are made up annually to December 31, and submitted in July. In October, 1907, a transatlantic service was opened for public use. In respect of 1909 the preference dividend (for thirteen months) to June 30, 1909, was paid; in respect of 1910 the preference dividend for eighteen months (to December, 1910) was paid, but nothing on the ordinary shares; and for 1911 and 1912 the preference shares received 17 per cent. and the ordinary 20 per cent. each year. On account of 1913 an interim dividend of 7 per cent. (actual) on the preference shares was paid on October 1, 1913, and an interim dividend of 10 per cent. on the ordinary shares was paid on January

31, 1914, while on the closing of the accounts for 1913 balance dividends of 10 per cent. (actual) on both preference and ordinary shares were declared, but owing to the outbreak of the European war, and the then impossibility of obtaining repayment of money lent by the company on short loan against securities prior to the moratorium, the posting of the dividend warrants did not take place until November 18, 1914; for 1914 7 per cent. was paid on the preference shares, and the ordinary shares received 10 per cent. General reserve fund, including share premium account, £967,530; carried forward, £69,497. Voting power, one vote for each share of either class, but no member is to be entitled to vote in respect of any shares held in excess of two-fifths of the issued capital. Director's qualification, 100 shares of either class. Transfer form, common; fee, 2s. 6d. Share warrants to bearer can be obtained in exchange for registered preference and ordinary shares on payment of a fee of 2s. 6d. for 20 shares, 1s. for 5 shares, and 6d. for 1 share, in addition to stamp duty, and share warrants to bearer can be reconverted into registered shares on payment of a fee of 2s. 6d., irrespective of the number of shares. Thayer. *Office.* Montreal.—The company was incorporated in January, 1914, under the laws of the Dominion of Canada, to consolidate the Northern Electric and Manufacturing Company, Limited, and the Imperial Wire and Cable Company, Limited, manufacturers of telephonic apparatus, electrical wires and cables, the Northern Company having been in

operation since 1895, and the Imperial Company since 1899. The authorised share capital is $10,000,000, of which $6,000 000 has been subscribed and paid up. In June, 1914, Messrs. Higginson and Co., Bank Buildings, Princes Street, E.C., offered for sale $3,500,000 first mortgage 5 per cent. sinking fund gold bonds of $100, $500 and $1,000 each, at the price of 95 per cent. The bonds form part of a total authorised of $10,000,000. and the balance of $6,5[illegible]0,000, or any part of it, can only be issued in the event of the value of the company's net assets being increased to an amount at least equal to the par value of such additional bonds, while the total outstanding bonds must not exceed the amount of the company's "net cash and quick assets" as defined in the mortgage. The total outstanding bonds must not exceed the total amount of the fully-paid capital stock, and the net earnings of the company for the previous fiscal year must have been at least double the interest charges on bonds theretofore issued and then sought to be issued. Interest is payable on the bonds on June 1 and December 1, and the principal is to be repaid June 1, 1939, but a cumulative sinking fund of 2 per cent. per annum is provided, commenced in June, 1915, and applied to the purchase of bonds at not exceeding 105 per cent. and accrued interest, or to the drawing of bonds at that price, if not so purchasable, and the company has reserved power to call the bonds (as a whole but not in part) for repayment (now) on any interest date, at 105 per cent. and accrued interest. The bonds are secured by a first mortgage on all the company's plants and real estate now owned or hereafter acquired (except two minor properties and a plant about to be superseded by a new plant under construction in Montreal); amount outstanding, $3,421.600. All payments on the bonds are made in Montreal, New York and London (in London by Messrs. Higginson and Co., at the fixed exchange of $4.86⅔ per £). The bonds are to bearer, but may be registered only as to principal at the office of the Montreal Trust Company, Montreal, the fee for the registration of bonds, or transfers to bearer, being 50 cents per bond. The proceeds of the bonds were to be used in part to defray the cost of new manufacturing plant in Montreal, and in part to provide additional working capital. So long as any of the bonds are outstanding no dividend is to be paid on the shares the effect of which would be to reduce the amount of "net cash and quick assets" below the amount of the outstanding bonds. For the year 1914, after charging seven months' interest ($102,083) on the above-mentioned bonds, there was a surplus of $175,872.

Before recommending any dividend the directors may set aside out of the net profits of the company "such sum as in their discretion they shall think advisable"; out of the profits of the company available for dividend the holders of the preference shares are entitled to receive, firstly, a fixed cumulative preferential dividend at the rate of 6 per cent. per annum, and secondly, 10 per cent. of the total divisible profits of each year, the residue of the profits to go to the ordinary shareholders, while upon a distribution of assets the preference shares are in the first place to be repaid, they are then to receive a sum equal to the difference between the dividend paid on them and interest at the rate of 6 per cent. per annum, the ordinary shares are then to be repaid, and of any surplus assets 10 per cent. is to belong to the preference shareholders, and the balance to the ordinary shareholders.

The debentures are secured by a first mortgage upon certain vessels acquired since the above first mortgage debentures were issued and on those now building, as well as upon such vessels and other capital assets as may be acquired with the proceeds of this issue, and by a floating charge, ranking pari passu with the floating charge in favour of the first mortgage debentures, upon the undertaking and other assets of the company. The authorised capital is $25,000,000 in shares of $100, one-half being in 7 per cent. preference and one-half in ordinary, and all the preference and $12,000,000 of the ordinary have been subscribed and paid up. Vickers, Limited, Furness, Withy and Co., Limited, and the British Maritime Trust, Limited, and their friends and associates have substantial holdings of the preference and ordinary shares of the company, and are largely represented on the board of directors and on the London Committee. In February, 1914, Messrs. Brown, Shipley and Co., Founders' Court, Lothbury, E.C., and the London County and Westminster Bank, Limited, Lothbury, E.C., were authorised by the purchasers to receive applications for £1,300,000 5 per cent. consolidated first mortgage debenture stock at the price of 93 per cent., the stock being simultaneously offered in Montreal and Toronto. Interest on the debenture stock is payable February 15 and August 15 by warrants sent by post, and the principal of the stock is repayable August 15, 1943, at 105 per cent. The trust deeds provide for a cumulative sinking fund of 1½ per cent. per annum, commencing in August, 1915, to be applied in the purchase of stock at less than 105 per cent. and accrued interest, or invested in the manner prescribed in the trust deeds, while the company has reserved the right to redeem the stock on any interest date after August 15, 1923, at 105 per cent. or earlier, at the option of the company, at 110 per cent., on six months' notice. The stock is secured by specific mortgages (subject to underlying bonds) upon the freehold and leasehold lands, buildings and steamships, upon shares of other companies owned, or hereafter to be acquired, and by a general charge upon the property, assets and undertaking. The total at present authorised of the debenture stock is £1,849,317 ($9,000,000), of which in all £1,300,000 ($6,326,666) has been issued; but the company has power to issue additional debenture stock, ranking pari passu with this issue, for the purpose of acquiring additional properties, &c., such increase, however, to be limited to 75 per cent. of the cost of such new properties, and with the certification that for the fiscal year next preceding such issue the net earnings of the company amounted to not less than double the amount required to pay interest and sinking fund on the stock already issued and the additional stock to be created. There are also first mortgage bonds for $2,664,462, bearing interest at various rates, while similar bonds for $200,000 have been deposited as collateral security for bank loans, which, at December 31, 1914, amounted to $166,783.

The accounts are made up annually to December 31, and submitted in March. In 1914, after meeting interest charges and reserving $455,630 for depreciation, &c., there was a loss of $59,932, and after including two quarterly dividends paid on the preference shares (to May 31, 1914), and writing $59,304 off organisation expenses, &c., the net result was a deficiency of $570,432, "due to disorganisation following the outbreak of war." Registers of the debenture stock are kept by Messrs. Brown, Shipley and Co., as above, and in Montreal, and transfers in London are effected on common forms, fee 2s. 6d. per deed, stock being transferable in multiples of £1, but not less than £21 of stock can be registered in London and not less than $100 in Montreal; debenture stock can be transferred from one register to the other on payment of a fee of 2s. 6d. per bond either way. Debenture stock can be exchanged into bonds to bearer, and vice versa, on payment of a fee of 2s. 6d. per bond, with, in addition, stamp duty in exchanging stock for bonds. Under decrees of February and August, 1906, and December, 1909, the government was empowered to grant an annual subvention to the company, and contracts were entered into in connection with the 1906 and 1910 loans between Messrs. Rothschild and the government for the payment of the subvention direct to Messrs. Rothschild. Under the Brazilian government funding scheme of 1914 the interest on these bonds from October 1, 1914, to April 1, 1917, both inclusive, is to be met in scrip or bonds of the Brazilian funding loan of 1914, and the date for the commencement of the sinking fund is postponed until October 1, 1927. The bonds are quoted in the official list with Brazilian government loans; latest price, 48.

The Companhia Lloyd Brasileiro is now in liquidation, and the undertaking is being administered by the government, but as the above-mentioned bonds are guaranteed by the Brazilian government their position is not affected in the slightest.

Cuban Ports Company.—*Office:* Havana.—The company was incorporated under Cuban laws in January, 1911, under the title of the Compania de los Puertos de Cuba, for the purpose of acquiring a concession for thirty years from the government of the Island of Cuba. This concession empowered the company to proceed with the dredging and other works required for the improvement of the ports of Havana, Santiago, and the other chief ports of the Island of Cuba, and, as remuneration for these works, the government created and granted to it the benefit of special port dues to be levied on all merchandise cargo unloaded at any Cuban port. These rates are 70 cents (American) per ton on all goods (except coal) coming from the United States, and 88 cents per ton on all similar goods imported from other countries; the special port dues on coal are at the rate of 10 cents per ton. These dues were to be collected by the government, and handed over to the company each week without any deduction. The authorised and issued share capital is $10,000,000 in shares of $100 each fully paid, and in May, 1911, Messrs. Kleinwort, Sons and Co., 20, Fenchurch Street, E.C., were authorised to receive, on behalf of the owners, applications at 97½ per cent. for $6,000,000 of 5 per cent. first mortgage twenty-five year gold bonds of $500 each; the bonds form part of a total authorised of $10,000,000, of which in all $7,000,000 has been issued, have coupons payable March 1 and September 1, and are to be repaid by March 1, 1936, against which date a sinking fund, commencing in 1921, is provided, which is to be applied in the purchase of bonds at a price not exceeding 105 per cent., or in redemption of bonds by drawings at 105 per cent. and accrued interest. The coupons are payable by the issuing firm in London, at the fixed rate of exchange of $4·86⅔ to the £ sterling, or in Cuba or New York, while the principal of the bonds is repayable only at the offices of the Trust Company of Cuba, Havana, all payments being made free of all present and future Cuban taxes. The bonds are to bearer, but may be registered as to principal only—in London at the office of Messrs. Forwood, Kt., A. C. F. Henderson, Lord Inverclyde and M. H. Maxwell. *General Manager:* A. D. Mearns. *Secretary:* W. Dranfield. *Office:* 8, Water Street, Liverpool.—The company was registered May 23, 1878; and in March, 1912, a large share holding was obtained in the Anchor Line (Henderson Brothers), Limited, in part exchange for which the company issued £175,000 preference stock. Late in 1911, the capital was rearranged and increased, twelve fully-paid preference shares of £1, and eight fully-paid ordinary shares of £1, being issued in exchange for each existing fully-paid £20 share, while six £2 preference shares, and four £2 ordinary shares with £1 credited on each were issued in exchange for each £20 share with £10 paid, all the old capital having been of one class, the alteration in capital dating as from January 1, 1911. Subsequently 540,000 new preference shares of £1 and 360,000 new ordinary shares of £1 were created, the uncalled liability on the issued preference and ordinary shares was cancelled, and the preference shares were converted into stock. The authorised capital is now £2,500,020, £1,500,000 being in 5 per cent. cumulative preference stock, with a priority as to capital, but without further participation, £1,000,000 in ordinary shares of £1, and a £20 "Government share," of which £1,135,000 of the preference stock, £703,699 of the ordinary shares, and the "Government" share have been subscribed and paid up; of the issued ordinary capital £63,699 was allotted in 1915 at par to the ordinary shareholders in payment of the bonus of 10 per cent. declared in respect of 1914.

The company entered into an agreement with his Majesty's government in 1903, by which it undertook to build two large steamers, the agreement to be in force for twenty years from the date of sailing of the second vessel. The company pledges itself during that time to remain a purely British undertaking, and to hold at the disposal of the government the whole of its fleet. In return the government advanced £2,600,000 (since reduced to £1,690,000) on 2¾ per cent. debenture stock for the construction of the two new vessels, the security for the advance being a first charge on the two new vessels named, and also on certain other vessels of the company's fleet, also a floating charge on the general assets of the company. The loan is to be repaid by annual payments (in November) of £130,000. The government also undertook to pay the company from the time the new vessels commenced to run £150,000 per annum instead of the pre-existing Admiralty subvention, and in addition £68,000 per annum for the mail services. The two vessels, the *Lusitania* and the *Mauretania*, were completed and delivered on August 27 and November 12, 1907, respectively. "The *Lusitania* was sunk on May 7, 1915, by a German submarine, and the amount recoverable in respect of her insurance is being dealt with in accordance with the provisions of the trust deeds."

In June, 1908, there was issued through Messrs. Glyn, Mills, Currie and Co., on behalf of the purchasers, £800,000 4½ per cent. mortgage debenture stock at 97 per cent., of which £266,666 had been previously placed on the terms of the prospectus, and the balance of £800,000 was sold privately in May, 1909, making up the total authorised of £1,600,000. The security of this debenture stock underwent some alteration in January, 1912, as a result of the extinguishing of the uncalled capital, and it is now secured by a specific first charge upon fourteen of the company's vessels, and by a second charge on certain other vessels of the company's fleet, including the *Lusitania* and *Mauretania*, has interest payable June 30 and December 31, and the principal is repayable at the rate of £80,000 per annum by purchase at or under, or by drawings at, 102 per cent., the first redemption having been effected in December, 1911, while all stock not previously paid off is to be redeemed, also at 102 per cent., on December 31, 1920; amount of 4½ per cent. debenture stock outstanding (at December 31, 1914), £1,280,000. It is provided that the company shall not, during the currency of the security, create any mortgage ranking in priority to, or pari passu with, the 4½ per cent. debenture stock. "The *Lusitania* was sunk on May 7, 1915, by a German submarine, and the amount recoverable in respect of her insurance is being dealt with in accordance with the provisions of the trust deeds."

The accounts are made up annually to December 31, and submitted in April. For 1903 4 per cent. was paid; for 1904, nil, revenue having been affected by a rate war; for 1905, 4 per cent.; for 1906 and 1907, 5; for 1908 and 1909 nil; and for 1910, 5 per cent. In 1911 the old ordinary capital was divided into preference and ordinary, as stated above, and for that year the ordinary shares received 7½ per cent.; for 1912 and 1913, 10 each year; and for 1914, 20, including a bonus of 10 per cent., the latter paid in cash or fully paid shares at par at the option of the holders. Reserve fund, £1,000,000; insurance account, £154,578; carried forward, £141,996. Dividends, formerly paid free of income tax, are now paid less tax.

Houlder Line, Limited.—*Directors:* F. H. Houlder (Chairman), Lord Furness, M. C. Houlder, F. W. Lewis, J. W. P. Peters and W. C. Warwick. *Managers:* Houlder Brothers & Co., Limited. *Secretary:* M. Rathbone. *Office:* 146, Leadenhall Street, E.C.—The company was registered March 16, 1899, to acquire and amalgamate the interests of the proprietors of a fleet of steamers; late in 1911 the Australian branch of the business was disposed of to the New Zealand Shipping Company, Limited, together with two steamers and the company's interest in another ship, and the company is now directing attention to the extension of its business with Argentina and Uruguay, for which purpose several new steamers have been acquired. In 1915 the directors of the company having obtained valuations of the company's fleet, a scheme of capital reduction was passed by the shareholders in June and received the sanction of the court in July, under which the ordinary share capital was written down by one-half, and after appropriating the depreciation fund and extinguishing the debit to profit and loss, the book value of the fleet was reduced to a figure corresponding to the fresh value obtained as above. At the same time arrears of dividend on the preference shares were funded, and the redemption position of the debenture stock (which was formerly repayable only at the company's option, or in the event of the company going into voluntary liquidation) was altered. The authorised capital is now £362,500, £225,000 being in 5½ per cent. cumulative preference shares of £5, having a priority also as to capital, and £137,500 ordinary of £2 10s., all of which has been subscribed and paid up. There is also £200,000 (the total authorised) 4½ per cent. first mortgage debenture stock, issued at par, with interest payable January 1 and July 1. Under the scheme of reorganisation in 1915, referred to above, the stock is redeemable at a premium of 5 per cent. over a period of sixteen years, commencing January 1, 1916, the company having the right of purchase in the open market, but no more than £6,250 of debenture stock is to be redeemed by purchase in the market in any one year, and drawings are to be held towards the end of each year for redemption at 5 per cent. premium, so that a total of £12,500 per annum is redeemed. In connection with the reduction of capital arrears of dividend on the preference shares to the end of 1914, amounting to £115,064, were funded into a similar amount of funding certificates in amounts of £2 17s. 9d. and multiples.

These certificates carry no interest, but are to be redeemed by the appropriation of the whole of the profits remaining after providing for 5 per cent. annual depreciation on the revalued fleet, and for payment of debenture interest, preference dividend and 5 per cent. on the reduced ordinary capital, while in the event of a winding up the certificates are to rank for repayment in priority to the reduced ordinary capital. Under the old agreement the managers were entitled to 5 per cent. on the gross receipts of the company, but for several years they had voluntarily accepted only one half of the amount to which they would have been entitled, with certain modifications, and they have now entered into a new contract on the basis of remuneration of 2½ per cent. on the gross earnings of the company.

The accounts are made up annually to December 31, and submitted in April. The last ordinary dividend was 5 per cent. paid for 1902 and the preference dividend fell largely into arrear. In 1914, after meeting debenture interest, and providing £45,819 for depreciation, there was a surplus of £32,034, which reduced a debit balance brought down to £249,359. Insurance fund, £5,000. In 1915 the ordinary capital was written down by one-half, the debit balance as at the end of 1914 was extinguished, the arrears of preference dividend were funded, and the redemption position of the debenture stock was changed as stated above.

Voting power, one vote for each share of either class. Director's qualification, £1,000 in shares of either class. Transfer form, common; fee, 2s. 6d.; debenture stock is transferable in amounts and multiples of £50. Telegraphic address, Houlders, London. Telephone numbers, 5506 Avenue and 5506 (Trunk) Avenue. Torrey. *British Committee:* E. C. Grenfell (Chairman), J. B. Ismay, Lord Pirrie, K.P., and H. A. Sanderson. *Office:* 51, Newark Street, Hoboken, N.J.—The company was incorporated June 6, 1893, under laws of New Jersey, U.S., as the International Navigation Company, and the name was changed as above October 1, 1902. The company has acquired the entire capital of the Oceanic Steam Navigation Company, Limited (£750,000), Atlantic Transport Company, Limited (£1,000,000), International Navigation Company, Limited (£700,000), and British and North Atlantic Steam Navigation Company, Limited (£456,920), and a controlling interest (£587,030 preference and £1,184,630 ordinary) in Frederick Leyland and Co., Limited, together with the shipping businesses of Messrs. Ismay, Imrie and Co., Messrs. Richards, Mills and Co. and other interests.

The authorised capital is $120,000,000 in shares of $100, half being 6 per cent. cumulative preferred and half common, and $51,726,300 of preferred and $49,872,400 of common have been issued and are fully paid. There are also—$17,632,000 of 5 per cent. first mortgage (sinking fund) gold bonds of $1,000 each (outstanding balance of $20,000,000 authorised), secured by a first mortgage on the properties known as the American and Red Star lines, with interest payable February 1 and August 1 (interest due February 1 and August 1, 1915, has not been paid), while the principal is repayable February 1, 1929, the company, however, having the right of calling the bonds for redemption at par (now) at any time; and $52,594,000 4½ per cent. mortgage and collateral trust gold bonds, part of a total authorised of $75,000,000, with interest payable April 1 and October 1 (interest due October 1, 1914, and since, has not been paid), and the principal repayable October 1, 1922, at par, the company having the right to call the bonds for repayment (now) at 105 per cent.—these bonds are secured by the deposit of the capital stocks representing the ownership of subsidiary companies, and also by a second lien on the same properties as the above-mentioned first mortgage sinking fund gold bonds (subject only to the outstanding balance of the $20,000,000 secured on the American and Red Star lines). All payments on both classes of bonds have been made in New York.

The accounts are made up annually to December 31. No dividend has yet been paid on either class of shares. For 1910, after meeting interest charges, and including $573,000 transferred from insurance account, there was a profit of $4,849,580, against which was set a debit balance of $1,297,354 brought forward, and $3,503,640 was appropriated for depreciation of steamships, leaving a surplus of $48,585; for 1911, after including the surplus brought forward and $291,000 transferred from the insurance account, and deducting interest charges, there was a profit of $4,557,854, of which $3,736,793 was appropriated for depreciation of steamships; for 1912, after meeting interest charges, and including $821,061 brought forward, there was a surplus of $4,608,973, of which $3,655,577 was appropriated for depreciation of steamships; and for 1913, after meeting interest charges and including the amount brought down, there was a surplus of $6,670,354, of which $5,401,357 was appropriated for depreciation of steamships. Insurance fund, $1,208,645. The accounts for 1914 have not been published, but in the reconstruction scheme referred to below the net profits for 1914, after setting aside $4,511,947 for depreciation, were given as $2,113,405, and it was stated that for the six years to 1914 the average available for interest had been $2,656,387.

Owing to the unsatisfactory state of business due to the war, the payment of interest on the 4½ per cent. mortgage and collateral trust gold bonds due October 1, 1914, was not met, and all subsequent payments are in arrear, while interest due February 1 and August 1, 1915, on the 5 per cent. first mortgage (sinking fund) gold bonds is also in arrear. In April, 1915, Mr. P. A. S. Franklin, of New York, the vice-president of the company, was appointed receiver of the American properties. Committees for the protection of the various classes of security holders were formed, and at the beginning of August, 1915, a reorganisation plan was issued, and the deposit of securities called for—the 4½ per cent. bonds with the New York Trust Company, of New York, while Messrs. Glyn, Mills, Currie and Co., 67, Lombard Street, E.C., received deposits in London; the 5 per cent. bonds with the Fidelity Trust Company, of Philadelphia; and the preferred and common shares with the New York Trust Company, of New York. Under the reconstruction plan a new company is to be formed with a capital of $18,500,000 of common shares, $81,500,000 of preferred shares, and $50,000,000 of first mortgage and collateral trust 5 per cent. convertible gold bonds. Holders of old common shares are to receive 5 per cent. of new common, and holders of old preferred shares are to receive 20 per cent. of new common (in the scheme as originally published the holders of these two classes of shares were to be assessed 2½ per cent., for which 2½ per cent. they were to get an equal amount of new 5 per cent. bonds, but it was subsequently announced that the continued large earnings of the constituent companies indicated that the assured cash resources of the new company rendered it unnecessary to require common and preferred holders to subscribe for bonds of the new company, and the assessment was consequently withdrawn); holders of old 4½ per cent. bonds receive 50 per cent. as regards capital and accrued interest of new bonds and 50 per cent. of new preferred shares; and holders of old 5 per cent. bonds receive 50 per cent. as regards principal and accrued interest of new bonds, 20 per cent. of new preferred shares, and 30 per cent. of new common shares. Under the scheme there will be issued against the four classes of old capital $36,996,272 of new bonds, $31,464,232 of new preferred shares, and $18,370,920 of new common shares. The new bonds are to be issued in denominations of $100, $500 and $1,000 each, secured by a first mortgage lien on ships, and by the pledge of securities to be acquired by the new company, are to have interest payable half yearly, and are to mature thirty years from date, with the option to the company to pay them off on any interest date at 105 per cent. and accrued interest, while the holders are to have the option of converting at par into new preferred shares. The new preferred shares are to rank for 6 per cent. dividends, non-cumulative, and are to participate equally with the common shares in dividends declared on the latter in excess of 6 per cent. per annum, while in the event of liquidation the preferred shares are to have priority over the common as regards capital, and are further to participate in surplus assets equally with the common shares after the latter have been paid back in full. The voting rights of the preferred and common

shares are to be equal, and as long as the preferred dividends are not being paid the holders of the preferred shares are to have the right to elect a majority of the directors. The plan of reorganisation, which has been declared operative, effects a reduction in capitalisation of approximately $80,000,000, and a reduction in annual fixed charges of about $1,272,000. Latest prices of old securities—common, 10¾; preferred, 46¾; 4½ per cent. bonds, 82.

La Guaira Harbour Corporation, Limited.—*Directors:* Capt. W. B. McTaggart (Chairman), C. P. Bickford, Maj. F. M. Carleton, T. H. Evans and T. Rojas (representing the Venezuelan government). *Secretary:* E. J. Summers. *Office:* 6, Broad Street Place, E.C. — The company was registered October 6, 1885, to take over a concession granted by the Venezuelan government. This concession is in perpetuity, and is exclusive for 99 years, during which period the government undertook to guarantee interest at 7 per cent. per annum on a capital of £600,000. The guarantee was to take effect from the date of the completion of each section of the works. The government also undertook to pay one-fifth of the cost, receiving shares for the amount of such payment; and the company is to be free from all taxation, state or municipal. Certain important questions in dispute between the government and the company were settled late in 1893, and the guarantee has been abandoned. Interest fell into arrear, and a receiver was appointed in December, 1891, and late in 1896 a scheme of arrangement, which included the funding of arrears of interest, was come to. This was carried through, and the receiver discharged. In 1912 the company acquired control of a concern owning a railway adjacent to the harbour undertaking.

The authorised capital is £400,000 in shares of £20, all of which has been subscribed and called up. Under the scheme of arrangement of 1896 there were created £420,000 first mortgage irredeemable debenture stock, bearing 5 per cent. interest, payable January 1 and July 1; and £600,000 second mortgage debenture stock, bearing 5 per cent. interest, non-cumulative, and payable only out of profits, while the principal is to be repaid, at the option of the company (now) at any time on six months' notice, at 110 per cent.; of the first debenture stock the total of £420,000 has been issued, and of the second debenture stock £578,289. There are also advances for £84,507, repayable (with interest on £5,000 thereof at 7 per cent. per annum) only when the corporation shall have paid dividends amounting to 7 per cent. per annum.

The accounts are made up annually to December 31, and submitted in April or May. The undertaking was completed in June, 1891. For 1901 the second debenture stock got ¾ per cent.; for 1902 only first mortgage interest was met; for 1903 the second stock got 1¼ per cent.; for 1904, 2½; for 1905, 1; for 1906, ½; and for 1907, 1⅜. For 1908 interest on the first mortgage debenture stock only was paid, the profits of the year having been seriously affected by an outbreak of bubonic plague, which necessitated the closing of the harbour for a period of nearly three months; for 1909 interest on the first mortgage debenture stock only was paid; for 1910 the second debenture stock got ½ per cent.; for 1911, £1 8s. 6d. per cent.; for 1912, 2; and for 1913 and 1914, 2¾ each time. Debit to net revenue at December 31, 1914, £194,647, the same as at the close of 1909 (including this debit, premium granted to stockholders on conversion of 7 per cent. debenture stock into 5 per cent. debenture stock and certain other items, there was a total deficiency at the end of 1914 of £365,055); carried forward to credit of second mortgage stockholders, £185. Reed. *Secretary and Accountant:* F. A. Eyre. *Office:* 41, Spring Gardens, Manchester.—This company was incorporated in August, 1885. The authorised capital is £10,512,000 of loans (including £6,000,000

which the Manchester Corporation under the powers of the Manchester Ship Canal Act of 1891, the Manchester Corporation [Ship Canal] Act, 1893, and the Manchester Ship Canal Act, 1913, was empowered to advance to the company on the security of debentures), £4,000,000 in perpetual 5 per cent. preference shares of £10, and £4,000,000 in ordinary shares of £10; by the Manchester Ship Canal (Finance) Act, 1904, the company was also authorised to issue 3½ per cent. non-cumulative preference shares or stock in settlement of arrears of debenture interest payable to the Manchester Corporation in respect of the £5,000,000 loan, and all deficiencies of revenue in meeting interest on this loan up to the end of 1909 were provided by the allotment of preference capital. These 3½ per cent. preference shares or stock have priority, as regards dividend, over all the other share capital and surplus profits, after payments due to the debenture holders and the corporation, and meeting the dividend on the 3½ per cent. preference capital, are in future to be divided—as to two-thirds among the 5 per cent. preference shareholders and one-third among the ordinary shareholders, provided that when the said two-thirds due to the preference shareholders shall amount to £200,000 per annum all the remaining profits shall be paid to the ordinary shareholders. All the £4,000,000 5 per cent. preference and £4,000,000 ordinary capital have been subscribed and called up, and £1,061,230 of 3½ per cent. preference stock has been allotted to the Manchester Corporation under the rearrangement of 1904, being in settlement of arrears of interest in respect of the £5,000,000 loan up to December 31, 1909 (interest accruing since on this loan has been provided out of revenue). There are also—rent charges, the capitalised value of which is £54,087; £1,359,000 perpetual 3½ per cent. first mortgage debentures; £153,100 perpetual 4 per cent. first mortgage debentures, accepted by the holders in lieu of repayment on January 1, 1914, being part of £448,000 which fell due for repayment on that date; and £171,300 perpetual 4 per cent. second mortgage debentures, accepted by the holders in lieu of repayment on January 1, 1914, being part of £600,000 which fell due for repayment on that date; the interest dates are January 1 and July 1. The balance of the £448,000 first mortgage debentures, viz. £294,900, and the balance of the £600,000 second mortgage debentures, viz. £428,700, have been issued to the corporation of Manchester in accordance with the terms of the Manchester Ship Canal Act, 1913. The amount payable by the company to the corporation by way of interest on the above-named sums is the actual cost incurred by the corporation in respect of the interest on and expenses of providing the loan to the company, including the cost of a sinking fund which will extinguish the loan in a period of 70 years from the date of borrowing. Further, £200,000 3½ per cent. perpetual debenture stock, ranking next after the foregoing, was issued in June, 1905, through Glyn, Mills, Currie and Co., and Williams Deacon's Bank, Limited, at 92½ per cent.; £350,000 4 per cent. perpetual debenture stock, ranking pari passu with the 3½ per cent. debenture stock, was issued in March, 1908, through Glyn, Mills, Currie and Co., and Williams Deacon's Bank, Limited, at 95 per cent.; there are £5,000,000 new mortgage debentures, issued to the Manchester Corporation, and ranking after the first and second debentures and the debenture stock; and a mortgage on the surplus lands for £50,000 (part of £100,000 authorised), with interest at 4 per cent. per annum payable June 30 and December 31, and the principal redeemable at short notice. By the act of 1904 the rate of interest on the new debentures was reduced from 4½ to 3½ per cent., and they were made irredeemable and incapable of transfer by the corporation; while by the same act the company was authorised to borrow £2,000,000, ranking as a third mortgage and as a prior charge to the £5,000,000 new mortgage debentures. Of this £2,000,000, £200,000 was issued in June, 1905, and £350,000 in March, 1908, both in debenture stock, as stated above; and £950,000 is to be applied to determining or procuring the surrender of leases granted to the Manchester Ship Canal Warehousing Company, Limited, and the Manchester Dock and Warehouse Extension Company, Limited, or either of them. Debenture interest is payable January 1 and July 1.

The accounts are now made up annually to December 31, and submitted in February. Interest on the debentures held publicly has always been regularly paid, but on those held by the Manchester Corporation payments were irregularly made, and the arrears thereon up to the end of 1909, amounting to £1,061,230, were funded into 3½ per cent. preference stock, while since that year full debenture interest has been paid out of revenue. The only dividend so far paid on the 3½ per cent. Manchester Corporation preference stock was 2¼ per cent. for 1913. For 1914 there was a surplus, after meeting fixed charges, of £29,790, which was carried forward.

Milford Docks Company.—*Directors:* C. E. Newbon (Chairman), A. E. Clow, C. A. Duncan, H. Newbon and S. L. Phipson. *Manager and Engineer:* J. C. Ward. *Secretary:* F. M. Brockelbank. *Office:* 14, Queen Victoria Street, E.C.—The company was incorporated in 1874; in 1883 an act was obtained under which the capital was reconstructed, and in 1890 another act was obtained reorganising the capital. On January 1, 1892, the company defaulted in payment of interest on the A debenture stock, and a receiver was appointed, who was discharged in August, 1892. Acts of parliament were obtained in 1892 and 1894, receiving the royal assent on June 27 and July 20 respectively, giving the company power to issue £70,000 in (by the 1892 act) "Milford Docks special charge debenture stock," or by the 1894 act in "Milford Docks special mortgages," for the purpose of acquiring the properties of the Milford Haven Dock and Railway Company, but by the act of 1898 the proceeds may be used for other purposes of the company, whether the railway be acquired or not. These special charge debenture stock or special mortgages are to carry interest at the rate of not exceeding 5 per cent., and to be specially secured upon the railway undertaking, if acquired, but otherwise upon the general undertaking of the company only. They are to rank in priority to the A stock both as regards principal and interest. By act of parliament obtained in 1900 all arrears of interest on the debenture stocks A and B were cancelled (except a small amount paid as stated below) and interest was made non-cumulative for seven years from June 30, 1900. (This period has since been extended in pursuance of the 1906 act to June 30, 1919.)

The authorised capital, including loans, prior to the act of 1892 was £1,500,000, but that act provided that if the £70,000 special charge debenture stock (or—by the act of 1894—special mortgages) should be issued the amount of debenture stock A authorised would be reduced by £30,000 and the £70,000 added, making a total of £1,540,000. This has now been effected. The following issues have been made, the order in which they are given being that of their priority: £45,000 4½ per cent. special mortgages; £6,500 5 per cent. special mortgages; £402,468 6 per cent. A debenture stock, with interest payable in February and August; £140,000 5 per cent. B debenture stock; £223,592 5 per cent. first preference stock, ranking only on the profits of each separate year; £199,198 5 per cent. second preference stock, ranking only on the profits of each separate year; and £161,940 fully-paid ordinary shares of £10.

The accounts are made up to June 30 and December 31, and submitted in August and February. The docks were opened September 21, 1888. For the first half of 1902 16s. 7d. per cent. was paid on the A debenture stock (in cash); for the second half of 1902, 13s. 10d.; for 1903, 16s. 4d. and 14s. 2d.;

Voting power, one vote for every ordinary share up to 10, one for every additional 5 shares up to 100, and one for every 10 beyond, the preference stocks having voting powers in the same proportion, £10 of stock being reckoned as one share, while holders of debenture stock A are entitled to the same voting rights as the shareholders, and the B debenture stockholders have a similar right, until full interest on their stock has been paid for three consecutive years out of profits. Peninsular and Oriental Steam Navigation Company.—*Directors:* Lord Inchcape (Chairman and a Managing Director), Sir W. Adamson, C.M.G., Lord Balfour of Burleigh, K.T., H. Brooks, Lord Burghclere, E. H. Cunard, H. N. Gladstone, Lord Kilbracken, Sir W. R. Lawrence, Bart., G.C.I.E., Hon. K. Mackay, W. Mackinnon, A. M. Monteath, W. G. Rathbone, F. Ritchie (a Managing Director), I. M. Shields (a Managing Director), Sir M. C. Turner and P. Williams. *Secretary:* F. J. Abbott. *Office:* 122, Leadenhall Street, E.C.—The company was incorporated by royal charter in 1840, and early in 1910 the business of the Blue Anchor Line, Limited, was acquired, while in 1914 the company acquired by an exchange of capital all the ordinary shares and preference stock of the British India Steam Navigation Company, Limited (in connection with the amalgamation the directors of the Peninsular and Oriental Company have joined the board of the British India Company, and the directors of the British India Company have joined the board of the Peninsular and Oriental Company). The subscribed capital was £3,500,000 in shares of £50, and £2,900,000 was paid up, 50,000 shares being fully paid, and the remaining 20,000 having £20 paid, but in 1889 the company obtained a supplementary charter to enable it to repay one-fifth of the then paid-up capital, to extinguish all liability on the shares, and to divide the capital into

equal portions of 5 per cent. cumulative preferred stock and deferred stock; and in 1914 the capital was largely increased by the acquisition as stated above of the bulk of the capital of the British India Steam Navigation Company, Limited. The authorised capital is now £4,837,874, of which £3,040,000 has been issued in 5 per cent. cumulative preferred stock, and £1,797,874 in deferred stock and paid up. There is no provision in the charter regulating the distribution of assets amongst the holders of the preferred and deferred stocks in the event of the company being liquidated. There are also £800,000 debenture stock, of which £500,000 was issued in August, 1894, at par, and £300,000 in April, 1896, by tender at an average price of £118 2s.; and £1,000,000 second debenture stock, of which £600,000 was issued in May, 1902, at par, and £400,000 subsequently, ranking after the foregoing £800,000 debenture stock. Both the stocks are perpetual, carry interest at 3½ per cent. per annum, payable March 1 and September 1, and are secured by floating charges on the company's undertaking. The company is entitled to purchase the debenture stocks on the market, and to issue new stock in substitution therefor. Subject thereto no further debenture stock can be issued ranking with the existing stocks. The company's powers to issue debentures or debenture stocks are regulated by clause 15 of their ninth supplementary charter which provides that "the total nominal amount for the time being secured by any debentures or debenture stocks issued by the company and for the time being outstanding shall not at any one time exceed £1,800,000 and a further sum equal to three-fourths of the nominal amount of any stock for the time being issued and paid up in addition to its existing preferred and deferred stock." The company therefore has power to issue, in addition to the above-mentioned £1,800,000 debenture stock, £885,000 debentures or debenture stock, representing three-fourths of the nominal amount of the £1,180,000 preferred stock issued in May, 1912.

The accounts are made up annually to September 30, and submitted in December, interim dividends (in 1915 of 2½ per cent. on the preferred, and 5 on the deferred) being paid in May. For the twenty-four years to 1913-14 10 per cent. per annum was paid, with bonuses of 3 per cent. in respect of 1896-7, 2 per cent. for 1898-9, 3 per cent. for each of the eleven years to 1910-11, and 5 per cent. for 1911-12, 1912-13 and 1913-14. The company insures its own ships, and to September, 1914, there were—a reserve fund of £1,374,000, and a contingent fund of £450,000; carried forward, £68,703. A balance dividend of 5 per cent. on the deferred stock is announced, together with a bonus of 5 per cent., making a total distribution of 15 per cent. for the year 1914-15.

Voting power, one vote for each £100 preferred or deferred stock, with a maximum of 20 votes. Director's qualification, £2,000 (nominal) of either preferred or deferred stock. Transfer form, common; fee, 2s. 6d. The preferred and deferred stocks are transferable in multiples of £1, not being less than £10, and the debenture stock is transferable in amounts of £10 and multiples. Telegraphic address, Peninsular, Led, London. Telephone numbers—1111 City (seven lines); 8000 Avenue (three lines). The company is quoted in the official list. Latest prices—preferred, 96½; deferred, 269; first debenture stock, 70¾; second debenture stock, 69½.

Port of Bahia.—This company, the correct title of which is the Companhia Cessionaria das Docas do Porto da Bahia, was incorporated under the laws of Brazil on November 24, 1902, to construct docks at Bahia, in Brazil. The federal government has reserved the right to purchase the whole of the Port works after December 1, 1922; "the price of purchase has been fixed so that, when reduced at par in obligations of the public federal debt, all capital expenditure effectively employed in the works by the Dock Company, and not then amortised, will obtain a revenue of 6 per cent. after deducting the amortisation."

The authorised capital is 50,000,000 milreis (equivalent to £5,000,000), all of which has been subscribed and paid up. In June, 1909, Lloyds Bank, Limited, 71, Lombard Street, E.C., on behalf of Messrs. Boulton Brothers and Co., 39, Old Broad Street, E.C., made an issue at 90 per cent. of £500,000 5 per cent. bonds of £20 and £100 each, forming part of an authorised issue of £3,000,000, all of which has been placed—£1,000,000 in Paris in 1907, and £1,500,000 in Paris in 1910. Coupons are payable March 1 and September 1, by the issuing bank (as regards the £500,000 placed here), and the bonds are redeemable at par by December 31, 1972, by means of a sinking fund commencing in 1923, to be applied by annual drawings at par if the bonds are at or above par, or by purchase if below par. Of the total net proceeds of the revenues of the Port, 70 per cent. is to be applied to the service of the bonds, while, in the event of this proving insufficient, the federal government of Brazil undertook to impose a special ad valorem customs tax of 2 per cent. in gold upon the whole of the merchandise imported into the Port of Bahia, and to pay over so much of it as might be necessary to cover the service of the bonds, and in the event of the 70 per cent. of the net proceeds of the revenue and the 2 per cent. gold tax proving insufficient, the Port dues were to be increased to the full amount required for the service of the bonds. The bonds are a mortgage on the whole of the undertaking of the dock company. The ad valorem tax of 2 per cent. in gold upon the merchandise imported into the Port of Bahia for 1910 produced equivalent to £84,403; for 1911, £91,216; for 1912, £105,712; and for 1913, £114,499. The total net revenue for 1914 amounted to £143,949, but the sums due from the Government for the second half of 1913 and for 1914 have not yet (October, 1915) been paid. The bonds are quoted in the official list.

"The works have not yet reached completion, owing to the extension of the concession from the government, and a more comprehensive building programme having been undertaken." Interest on the bonds due September 1, 1914, and since has not been paid.

Port of Havana Docks Company.—*Directors:* Sir R. W. Perks, Bart., E. Klapp, B. W. Palmer, W. B. Parsons, L. V. Placé, J. B. Reynolds and G. H. Whigham. *Office:* 60, Wall Street, New York. *London Agents:* Dunn, Fischer and Co., 41, Threadneedle Street, E.C.—The company was incorporated in 1910, as the Havana Dock and Warehouse Company, to acquire a concession granted by the government of the Republic of Cuba for the construction of four piers, and warehouses, in the Port of Havana, and in December, 1910, the name was changed as above. The concession expires November 29, 1955, when the works become the property of the government without payment. The first pier was finished by March 1, 1913, the second pier was completed by the end of 1913, and a period of ten and fifteen years respectively is allowed within which the company is to construct the third and fourth piers. The authorised capital is $4,600,000 in

shares of $100, $600,000 being in 6 per cent. non-cumulative preferred shares, and $4,000,000 in common, and the entire capital has been issued and paid up. In July, 1913, there was offered for sale, on behalf of the owners, by the British Bank of Northern Commerce, Limited, 41-3, Bishopsgate, E.C., £200,000 5 per cent. first mortgage thirty-year gold bonds of £20 and £100 each, at the price of 86¾ per cent. The bonds form part of a total authorised of £800,000, and £600,000 have in all been issued, the remaining £200,000 being held in reserve for future requirements; they have interest payable February 1 and August 1, and the principal is repayable at par on February 1, 1941, by means of a sinking fund of 1½ per cent. per annum, beginning in 1915 (see below), to be applied half-yearly to purchases in the market at or under par and accrued interest, or to annual drawings at that price, while the company has the right to redeem the whole of the bonds outstanding at any time at 105 per cent. plus accrued interest on any interest date, on six months' notice. The bonds are a first charge on the concession and all other property and rights of the company, present and future. Interest is payable in London, at the option of the holders, in sterling, in Brussels, or in New York at the fixed rate of $4·86⅔ to the £, all payments being made free from present and future United States or Cuban taxes. No revenue account has yet been published. Interest on the debentures up to February 1, 1915, was duly paid in cash, but owing to the shortness of funds the coupon due August 1, 1915, was met in notes, which are payable on August 1, 1917, renewable at the option of the company until August 1, 1918, and carry interest at the rate of 6 per cent. per annum, payable at maturity; the company was also unable to meet the first half-yearly instalment on February 1, 1915, for the sinking fund, and subsequent payments are also in arrear. The bonds are to bearer, but may be registered as to principal at the head office, or at the agency of the company in London, and registered bonds are exchangeable back to bearer the fee for either operation being 1s. per bond.

Port of Pará.—*Directors:* P. Farquhar (New York, President), M. Bauwens (Brussels), J. Comble (Paris), J. de Decker (Paris), H. M. Hubbard (London), Prince Poniatowski (Paris), A. A. Pouyaune and E. Quellennec (Paris). *Head Office:* Paris. *London Office:* 9, Throgmorton Avenue, E.C.—Under this title a company was incorporated September 1, 1906, under the laws of Maine, U.S.A., to acquire a concession granted by the federal government of Brazil, for constructing harbour works at the port of Pará, and the maintenance and operation of the same. The main constructional work of the port, including the administration buildings, was completed in 1913. The company has the right to make further extensions subsequently if required by the growth of business. The concession extends in the first place until December 31, 1973, with a provision that, if further works are constructed beyond the second division, the time of the concession is to be extended until December 31, 1996. The concession provides, among other things, that no vessel can be cleared at Pará which has not paid to the company certain dues established by the concession for mooring, loading, &c.; the handling of merchandise for the custom house must be done through the company; the government grants, free of charge, the maritime lands and all government property within the zone of the works not already alienated, and for the latter the right of expropriation; during the term of the concession the works are exempt from state and municipal taxes and from import dues on all materials necessary for construction and operation; the government has only the right to revise the dues charged by the company after the net profits on the capital recognised in the concession exceed 12 per cent., and at the expiration of the concession the property reverts to the federal government absolutely, without consideration. Moreover, on and after January 1, 1923, the federal government is to have the right to purchase the port, paying therefor the cost of its construction in 8 per cent. gold bonds of the federal government. The Brazilian government levies a special gold tax of 2 per cent. upon the total imports into the port of Pará, out of which it agrees to pay interest at 6 per cent. per annum on the cost of the works during and after construction in case the net revenue, after allowing for working and maintenance expenses, fixed by the concession at 40 per cent., should not at any time be sufficient. For the purpose of this import tax the face value of imports in paper milreis is taken at gold value, viz., 27d. per milreis. On the basis of the imports for 1905 the 2 per cent. gold tax amounts to £140,545 (this tax, at the company's request, was suspended on June 30, 1910, and on and since November 1, 1913, was re-imposed). A contract for the works was entered into with the Pará Construction Company, Limited, which guaranteed the interest on the bonds and administration expenses, less revenue derived from the operation of the port during the period of construction up to June 30, 1912, and these charges were met. The company owns an extensive interest in the navigation business of the Amazon River. The capital issues are as under, both classes of shares having been allotted as fully paid for the acquisition of the concession and on account of cost of construction:—

$13,000,000 Ordinary shares of $100, part of $15,000,000 authorised, including 30,000 shares issued as fully paid in 1912 to the Pará Construction Company, Limited, in part payment for the port works.

$10,500,000 Six per cent. non-cumulative participating preferred shares of $100, without priority as to capital, part of $17,500,000 authorised, participating equally with the ordinary in surplus profits, after the latter have received 6 per cent., including 30,000 shares issued as fully paid in 1912 to the Pará Construction Company, Limited, in part payment for the port works.

£3,600,000 Five per cent. first mortgage fifty-year gold bonds of £20 and £100 each, being the total authorised. Of the above amount of £3,600,000, £350,000 was offered for sale in November, 1906, by the Bank of Scotland, on behalf of the owners, at 92½ per cent., and £900,000 was issued in Paris and Brussels; in May, 1910, the London City and Midland Bank, Limited, on behalf of the owners, offered for sale £200,000 of the bonds at 91 per cent.; and the balance has been sold on the continent. The interest dates are January 1 and July 1, and the principal is repayable at par January 1, 1957, by means of a sinking fund of ½ per cent. per annum, commencing January 1, 1912, which may be employed in redeeming bonds by annual drawings at 105 per cent., or by purchase at or under that price; the bonds are also redeemable at 105 per cent. (1) on or after January 1, 1917, on six months' notice from the company, (2) before January 1, 1917, in certain specified events, and (3) in the event of liquidation

or amalgamation. Bonds for £75,420 have been redeemed from the sinking fund, reducing the amount outstanding to £3,524,580. The bonds are secured as a specific first charge on the guarantee of interest payable out of the proceeds of the above tax on imports, and a first charge on all the works, plant, and other assets constituting the first division of the first section of the port. Interest is payable—in London by the Bank of Scotland, 30, Bishopsgate, E.C., and in various continental cities, and has been met to date. The bonds are to bearer but may be registered, and registered bonds may be reconverted to bearer, on payment of a fee of 1s. per bond either way.

Interest due January 1, 1915, and since has not been paid, neither has the sinking fund been provided.

£3,736,089 Five per cent. first mortgage sixty-year bonds of 500 francs each, £1,490,461 having been issued in Paris in April, 1911, at 90½ per cent., £993,640 in Paris in November, 1911, at 91½ per cent., and £1,251,987 in Paris in February, 1913, at 86 per cent.; out of the proceeds of the last-mentioned issue an extensive interest was acquired in the navigation business of the Amazon River. The bonds form part of a total authorised of £5,000,000, have interest payable March 1 and September 1, and the principal is repayable at par March 1, 1969, by means of a sinking fund of ½ per cent. per annum, commencing March 1, 1918, which may be applied in redeeming bonds by annual drawings at par plus accrued interest, or by purchase at or under that price; the bonds will also be redeemable at 102 per cent. (1) at any time on six months' notice from the company, or (2) in the event of liquidation or amalgamation. The bonds are secured by a specific first charge on all the works, plant and other assets constituting the second division of the first section of the port, and on all the assets acquired with the proceeds of the bonds, and by a second charge on the first division of the works, and on the above-mentioned guarantee of interest. Interest on these is payable in Paris only. The bonds are to bearer, but may be registered at the company's office on payment of a fee of 1s. per bond, and registered bonds may be reconverted to bearer on payment of a fee of 1s.

Interest due September 1, 1914, and since has not been provided, neither has the sinking fund been provided.

The accounts are made up annually to December 31, and those for 1913 were submitted in May, 1915. No dividend has yet been paid on either class of shares, and bond interest is in arrear as stated above. For the second half of 1912 the net earnings were £120,611; for 1913, £200,533; and for the first half of 1914, £93,601, against £115,746 in the first half of 1913. In respect of 1913 there was a surplus after meeting interest charges, &c., of $370,181, and after writing off $876,788, including $561,139 "reserve for interest charged to subsidiary and allied companies," a credit balance of $1,360,634 brought down was reduced to $854,027. Messrs. Alexander Mackenzie and Frederick L. Eldridge have been appointed receivers of the company. The authorised capital is £75,000 in shares of £1, of which £46,700 has been subscribed and called up. On the shares originally subscribed for a dividend at the rate of 5 per cent. per annum was guaranteed by the vendor for a period of five years from the date of incorporation, and a sum of £10,000 was deposited with the trustees to provide for the guarantee. This guaranteed dividend was duly paid for the three years to April, 1913, but late in 1913, in order to provide working capital, a scheme was formulated for the purpose of utilising the balance of the guaranteed trust fund as working capital; the vendor agreed to surrender his rights, interest and claims (other than those of a shareholder) in any future profits of the company, while the shareholders relinquished their right to the balance (two years) of the guaranteed dividend due to them, and in satisfaction thereof received debenture stock, as stated below. The amount of the debenture stock is £4,004, of which £3,754 was issued to the shareholders against the guaranteed dividend, as above, and £250 to the vendor in respect of his rights and claims; the stock is entitled to interest of 7 per cent. per annum (to be accumulated until the company is able to pay it out of profits), with a further right to participate to the extent of 50 per cent. in the net profits of the company, after payment of such interest, while the stock is to be redeemed at the option of the company at 25 per cent. premium, at any time after January 1, 1920, on three months' notice. Holders of this stock who have subscribed for their pro rata proportion of the new debenture stock are entitled to have their present debenture stock, plus accrued interest, converted into new debenture stock for the same amount. In August, 1915, the directors issued a circular to the debenture stockholders (all of whom are shareholders in the company) inviting subscriptions towards a fresh issue of debenture stock, the total amount of which is £8,700, of which £4,460 has been retained to provide for the conversion of the existing debenture stock and accrued interest, and £4,240 has been offered for subscription, and £3,000 allotted (75 per cent. now paid, and 25 per cent. due March 17, 1916). The new debenture stock ranks pari passu as to principal and interest (7 per cent.), and participates in 50 per cent. of the net profits with the old debenture stock, while it is also entitled to a further 45 per cent. of the net profits, and it is redeemable at the option of the company at 125 per cent. at any time on or after January 1, 1925, on three months' notice.
